RESIDENT STUDENTS

Children who are residents of the school district community will attend the school district without paying tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. A student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education. Further, students who have reached the age of majority and who are still eligible to attend an Iowa secondary school may declare their residence independent of the residence of the parents.

Each case involving the bona fide residence of a student will be decided upon its individual merits by the superintendent.

NONRESIDENT STUDENTS

Students who are eligible to attend an Iowa public school but who are not legal residents of the school district may be admitted into the school district at the discretion of the superintendent upon application and payment of tuition. The tuition rate is the current per-pupil cost of the school district as computed by the board secretary and as authorized by the Iowa Department of Education.

Resident students whose families move from the school district after the start of a semester and who wish to complete the semester in the school district may be permitted to attend without the payment of tuition at the discretion of the superintendent and approval of the board. Students who plan to open enroll to the nonresident district may complete the school year without approval of the superintendent or board. These students, other than students in grades eleven and twelve, must have the recommendation of the principal.

Students in grades eleven or twelve who are no longer residents of the school district, but were residents in the preceding school year, may continue to attend school until they graduate without the payment of tuition. These students may be required to identify an adult, who resides in the school district, identified for purposes of administration.

Nonresident students who are eligible to attend an Iowa public school and who have evidence they will become legal residents of the school district prior to October 1 may be allowed to attend without the payment of tuition.

COMPULSORY ATTENDANCE

Parents within the school district who have children over age six and under age sixteen by September 15, in proper physical and mental condition to attend school, will have the children attend the school district at the attendance center designated by the board. Students will attend school the number of days or hours school is in session in accordance with the school calendar. Students of compulsory attendance age will attend school a minimum of 180 days or 1080 hours. Students not attending the minimum days or hours must be exempted by this policy as listed below or, referred to the county attorney. Exceptions to this policy include children who:

- have completed the requirements for graduation in an accredited school or have obtained a high school equivalency diploma;
- are attending religious services or receiving religious instruction;
- are attending an approved or probationary approved private college preparatory school;
- are attending an accredited nonpublic school;
- are receiving independent private instruction; or,
- are receiving competent private instruction.

It is the responsibility of the parent of a child to provide evidence of the child's mental and physical inability to attend school or of the child's qualifications for one of the exceptions listed above.

The principal will investigate the cause for a student's truancy. If the principal is unable to secure the truant student's attendance, the principal should discuss the next step with the school board. If after school board action, the student is still truant, the principal will refer the matter over to the county attorney.

The school will participate in mediation if requested by the county attorney. The superintendent will represent the school district in mediation. The school district will monitor the student's compliance with the mediation agreement and will report violations of the mediation agreement to the county attorney.

ENTRANCE - ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to September 15 to participate in the school district's kindergarten program. The child must be age six on or prior to September 15 to begin the first grade of the education program.

Before the student may enroll in the district's education program the board will require evidence of age and residency in the form of a birth certificate or other evidence of age. It is within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with their health and immunization certificate. Failure to provide this information within the time period set by the superintendent is the reason for suspension, expulsion or denying admission to the student.

ATTENDANCE CENTER ASSIGNMENT

The board will have complete discretion to determine the boundaries for each attendance center and to assign students to the attendance centers.

Parents or guardians of siblings in the same grade level academically in grades kindergarten through grade five may request the siblings be placed in the same or different classrooms. In order to be valid, the request must be made in writing and submitted to the school principal at the time of registration for classes, or within fourteen days after the children's first day of attendance during the school year. If a valid request is received by the school principal, the request must be honored. While a parent or guardian may make a placement request that siblings be placed together or apart, the district administration retains complete discretion to select the classroom teacher(s) to which siblings are assigned. If after the initial grading period following the placement of siblings in the same or different classrooms the school principal determines the placement is disruptive to the class; the principal may assign one or more of the siblings to different classrooms.

It is the responsibility of the superintendent to make a recommendation to the board annually regarding the assigned attendance center for each student. In making the recommendation, the superintendent will consider the geographical layout of the school district, the condition and location of the school district facilities, the location of student population, possible transportation challenges, financial condition of the school district and other factors deemed relevant by the superintendent or the board.

STUDENT TRANSFERS IN

Students who transfer into the school district must meet the immunization and age requirements set out for students who initially enroll in the school district.

The school district will request the student's cumulative records from the previous school district. If the student cannot offer proof of grade level, the superintendent will make the grade level determination. The superintendent may require testing or other information to determine the grade level. Students expelled or suspended from their previous school district will only be enrolled after approval of the board.

The superintendent will determine the amount of credits to be transferred. If the student has not previously attended an accredited school, it is within the superintendent's discretion to accept or reject credits or grades.

The board may deny admission if the student is not willing to provide the board with the necessary information.

STUDENT TRANSFERS OUT OR WITHDRAWALS

If the student's parents wish to withdraw or transfer the student from school prior to completing and graduating from the education program, they should notify the superintendent in writing as soon as possible of the decision to withdraw or transfer the student from the education program. The student or parent should present this written notice at the office and receive instructions regarding the return of textbooks, library books, locker equipment, hot lunch tickets, etc.

The notice should state the student's final day of attendance. If the student is not enrolling in another school district, the school district will maintain the student's records in the same manner as the records of students who have graduated from the school district.

If the parents wish to have the student's cumulative record sent to the new school district, the parents must notify the superintendent in writing. This notice will include the name of the school district and the person at the new school district to whom the student's cumulative records should be sent. If the new school district requests the student's cumulative records, the school district will forward the cumulative records and notify the parents the records have been sent. The notice will inform the parents of their right to review the records sent.

If the student is of compulsory education age and not transferring to another public school district or an accredited nonpublic school, the parents will notify the superintendent that the student is receiving competent private instruction and file the necessary competent private instruction reports.

STUDENT ABSENCES - EXCUSED

As part of the Decorah Community School District's records, the daily attendance of each student is recorded and maintained on file with the permanent records of the student. Attendance is a shared responsibility requiring cooperation and communication among students, parent(s)/guardian(s) and school. (Iowa Code 299.1)

Parents are asked to call school each day their student will not be attending school. It is the parent's prerogative to determine whether or not their child attends school on a specific day. It is the prerogative of the school district to determine whether or not that absence is excused.

The administration recognizes that student absences are sometimes necessary. The administrator or administrator's designee will determine whether a student's absence is classified as excused. When a student misses classes due to school-sponsored activities, those absences will be excused. Students whose absences are excused will have the opportunity to make up the work missed and receive full credit. It will be the responsibility of the student to initiate a procedure with the student's teacher to complete the work missed.

Students may be excused from attending class for the following reasons:

1. personal illness – to make a student's return from an extended illness or hospitalization as successful and helpful as possible, information needs to be shared regarding opportunities to provide support or possible adjustments to the student's school day. Prior to the return from an extended illness or hospitalization, it is important that students and parents communicate with either the school counselor, nurse, or with administrators regarding the student's educational needs. A meeting may need to occur to develop a plan that will assist the student.
2. professional appointments
3. court appointments
4. parent or guardian request when vital to the family welfare
5. bereavement
6. religious observances
7. pre-arranged and approved absences
8. pre-arranged college visits (only w/ guidance approval) - upon returning from a college visit, students will be required to submit a letter on college letterhead or an email from the college indicating the date of their visit and the individuals with whom they met. This letter is to be signed by an official from that college.
9. Other compelling situations which might be approved by the administration if suitable reasons are submitted.

Absences for reasons other than those listed previously will be unexcused. Normal errands, hair appointments or work schedules do not fall in the excused category unless approved by the administration. Decorah Community School District does not have a sanctioned "skip day" and students participating will not be excused from classes.

It will be the responsibility of the parent/guardian to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The administrator may request evidence of written verification of the student's reason for absence.

GUIDELINES AND PROCEDURES

When absent:

1. All parents/guardians are asked to communicate with the principal's office the morning of absence unless parents are able to communicate the intended absence before the day the student will be gone.

If there is no communication, the absence will be considered unexcused.

2. For professional appointments during the school day.
 - A. Students must sign out in the office before leaving.
 - B. Students must obtain a professional appointment form from the office of the appointment or from the Principal's office.
 - C. This form must be signed by an official at the appointment. The signed form will be returned to the principal's office in order to constitute an excused absence. A maximum of fifteen minutes will be allowed before and after the appointment for local travel time.
 - D. If the appointment is of sensitive nature and the parent prefers privacy in the matter, the parent/guardian is asked to contact a high school administrator or counselor in lieu of the signed appointment form prior to 12:00 noon of the day of the absence.

It is recognized, however, that a student's absence, even though excused, still affects the student's education. Efforts should be made by both students and parents to minimize the number of excused absences.

The district believes that traditional, in-person school attendance leads to the greatest learning opportunities for students. However, there may be rare and unusual circumstances created by public emergencies declared by state or local officials which temporarily prevent students from attending traditional, in-person school. In these circumstances, the superintendent will have discretion to make reasonable accommodations for students, on a case-by-case basis, to attend school through remote learning opportunities within the available resources of the district and as permitted by law. During approved remote learning, attendance will be taken, assessments may be administered, and grades will count towards students' cumulative grade point average as if they were attending in person. The provision of special education and accommodations for students who have individualized education programs (IEPs) or Section 504 plans will be determined by each respective IEP or Section 504 team.

ACTIVITY PARTICIPATION

Students who wish to participate in school-sponsored activities must be in school by 11:30 AM on the day of the activity unless permission has been given by the administration or the student to be absent. Students who miss part of the school day due to illness must be in attendance at school by 11:30 a.m. in order to participate in a contest or practice on that day. Students missing school for reasons other than illness must have an excused absence in order to participate. The final authority for infractions of this rule will rest with administration. Students absent from school on Friday with a contest the following day (Saturday) will be eligible to participate provided the absence is an excused absence.

School-sponsored activities may necessitate absences from classes. Students should notify the classroom teacher one day prior to their absence. Projects or scheduled assessments due on the day of a school-sponsored absence must be submitted or completed immediately upon the student's return to class. Assignments given the day before or the day of school-sponsored absences will be given two days for completion following the student's return to class.

ABSENCES - PHYSICAL EDUCATION CLASSES

Students who are excused from school and consequently miss their physical education class may make-up their class in a timely manner following the absence. Since participation is a critical element in the grading procedure, students are encouraged to attend class on a regular basis and make-up for all absences in a timely manner.

To be medically excused from physical education a student must bring an excuse from a doctor or apply and be approved for a medical and/or religious exemption. All medical excuses must first be taken, by the student, to the nurse's office and then to the physical education instructor before the excuse becomes valid. The instructor will then adapt activities so the student may complete their physical education credit.

Every student must enroll in and have a physical education course listed on his/her schedule every school

year. All students will receive a grade in physical education. Students exempted from physical education because of medical and/or religious reasons may not receive credit or a grade for the length of the exemption. All students need four credits of physical education to meet the graduation requirements unless a medical and/or religious exemption has been granted.

LATE ARRIVAL/LEAVING EARLY FOR AN APPT. OR ILLNESS

Should it become necessary for a student to leave the school building/campus area during the school day, the student will be required to obtain approval and check out in the office. Students who must leave school due to illness must obtain a pass from the school nurse. If a student leaves for any reason other than illness, the attendance office must receive a telephone call from a parent or guardian prior to the student leaving the building. It is the student's responsibility to pick up a pass in the Office prior to their appointment time in order to leave class early. Students who leave the building without prior approval will not be excused from the class(es) they miss.

It is the responsibility of the parent to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The principal may request evidence or written verification of the student's reason for absence.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

REQUEST FOR REMOTE LEARNING FORM

Date: _____

Student Name: _____ Attendance Center: _____

Parent/Guardian: _____

I, _____ (Parent/Guardian) am requesting accommodation for my child, _____ (Student Name) to participate in remote learning opportunities for the duration of the declared public emergency, or until I have determined my child can safely return to traditional in-person learning at his/her designated attendance center, whichever occurs first.

I have attached to this form documentation from an Iowa Board of Medicine-licensed medical professional confirming that remote learning is medically necessary due to the vulnerable health condition of my child or of a family member residing within the same home as my child.

I understand that the district will do their utmost to accommodate my child's learning needs, but that some learning opportunities may need to be modified in a remote environment. The provision of special education and accommodations for students who have individualized education programs (IEPs) or Section 504 plans will be determined by each respective IEP or Section 504 team.

I understand that in order for my child to continue to participate in mandatory learning, his/her remote attendance will be taken, assessments administered, and grades will be counted toward my child's cumulative grade average. I understand that any devices, technology, or materials given to my child to facilitate remote learning are the property of the district and must be returned at the end of the remote learning period.

I am requesting that remote learning opportunities begin on _____ (date) and continue until _____ (date) or the declared public emergency is dismissed.

(Parent/Guardian) _____

TRUANCY - UNEXCUSED ABSENCES

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students will attend school unless excused by the administration of their attendance center.

Chronic Absenteeism is defined as a student being absent (unexcused) from 10% of their regularly scheduled classes in a semester (Iowa DOE Guidance). Excused and unexcused absences will not be combined for the imposition of sanctions under this attendance policy. Unexcused absences shall not include suspensions or classes missed because of attendance at a school-sponsored trip or activity. (IA D.O.E. Guidance, 2014)

The term "unexcused absence" means an absence from a regularly scheduled class period(s) which has been determined as unexcused using the following criteria:

1. Absences without the permission of the parents/guardians and/or School.
2. Absences not verified within 24 hours.
3. Vacations/trips which have not been given prior approval by building administration.
4. Work outside of school (either for a parent or other) when not approved in advance by a building administrator/designee.
5. Leaving school without checking out through the nurse's office and without administrator approval.
6. Concerts, preparation for or participation in parties and other celebrations that are not school sponsored.
7. Unexcused tardiness to a class that results in the student missing more than 10 minutes of the instructional period.
8. Senior pictures.

The following absence reasons are excused and exempted from being counted as part of the excessive absences. It is important that parents contact the school immediately when these situations occur:

1. Extended illness or accident, which requires extended care. Any student absence due to illness that goes beyond 4 to 5 continuous school days.
2. Recurring illness: any medically verified illness, disease, or condition which causes the student to miss school on a regular basis.
3. Death or serious illness/injury in the immediate family or household.
4. Attendance at a school-sponsored and supervised activity when class requirements have been completed by the student in advance.
5. Any absence approved exempt by the administration.

For students less than 16 years of age (at the start of a school year) and their parents, school attendance is a legal obligation. (Iowa Code 299.1A) Teachers and other school staff who must accommodate unnecessarily absent students may have less time to respond to the needs of students who are more regular in their school attendance. Truancy is the act of being persistently absent without a reasonable excuse. (Iowa Code 299.8-11). Where appropriate, building administration may refer a student's parent(s)/guardian(s) to the Winneshiek County Attorney to pursue truancy charges.

Students are subject to disciplinary action for truancy including suspension and expulsion. It is within the discretion of administration to determine, in light of the circumstances, whether a student may make up work missed because of truancy.

Students receiving special education services may be assigned to supervised study hall, in-school suspension if the goals and objectives of the student's Individualized Education Program are capable of being met. If a child is already receiving IDEA or 504/ADA services and is frequently absent, the student's IEP team may need to consider whether the child's absences are closely related to the child's disability, whether the child's plan needs to be revised, or both.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. The administrative regulations will indicate the disciplinary action to be taken for truancy.

TRUANCY - UNEXCUSED ABSENCES REGULATION

Daily, punctual attendance is an integral part of the learning experience and is required of all students to receive the maximum benefit of the educational program. The habit of good attendance established early is one which helps a person be successful throughout his or her lifetime. More and more, employers, colleges and vocational schools expect good attendance and are checking student attendance records. They are aware that good and prompt attendance indicates dependability in a student.

The education that goes on in the classroom builds from day to day and as a result, absences always cause some disruption in the educational progress of the absent student. Students who are absent may not understand what the teacher is currently presenting, and may also become discouraged with the double burden of keeping current and making up missed work. In order to maintain interest and understanding in the instructional program, students should not expect to be absent any more than is absolutely necessary. Irregular attendance or tardiness by students not only limits their own studies, but also interferes with the progress of those students who are regular and prompt in attendance. Attendance is a shared responsibility that requires cooperation and communication among students, parents and school.

Students who are absent without a reasonable excuse, as determined by the administration, will be assigned to supervised study hall, detention, Saturday school, in-school suspension, or other appropriate disciplinary sanction. Reasonable excuses include illness, family emergencies, recognized religious observances and school sponsored or approved activities. Reasonable excuses may also include family trips or vacations if the student's work is finished prior to the trip or vacation.

STUDENT RELEASE DURING SCHOOL HOURS

Students in grade 12 may be allowed to leave the school district facilities when they are not scheduled to be in class. Students in grades 11 and 12 may be allowed to leave the school district facilities during the lunch period. Students who violate school rules may have this privilege suspended.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Students are required to be in the building, in assigned areas, at all times during school operating hours. Juniors will have open campus privileges for lunch only. Seniors will have open campus privileges during unscheduled class periods as well as lunch. Juniors and seniors, who knowingly violate campus privileges by taking underclassmen off-campus, or to unauthorized areas on campus, will lose their off-campus privileges and be subject to the same consequences as the underclassmen. Exceptions to this rule would be as follows:

- 1) The student is attending a school-related function that is not on the Decorah Community School District campus.
- 2) The student has an excused absence from school.
- 3) The student has obtained permission to leave the school campus from the Administration or the nurse.
- 4) Students involved in job training shared career programs designated on their IEP. Ninth, Tenth, and Eleventh-grade students are not allowed outside the school building during the school day (except during lunch for juniors). Students will be subject to disciplinary action if found in violation.

Junior and Senior students with multiple unexcused absences may be referred to an administrator to determine loss of off-campus privileges.

PREGNANT STUDENTS

The board encourages pregnant students to continue to attend the education program as long as they are physically able to do so. The pregnant student may notify the principal or the guidance counselor as soon as she is aware of the pregnancy. The school may require that a pregnant student provide the principal with a written note from her doctor relative to special conditions that might exist and specific suggestions as to how long the student may continue to attend classes. If the student is unable to attend school because of her pregnancy, the student may be excused and arrangements made to continue her studies during her absence. The student will resume classes upon the recommendation of her physician.

STUDENTS OF LEGAL AGE

Students who have attained legal age may continue the education program without payment of tuition as long as they are eligible to attend an Iowa public school and are residents of the school district.

Parents will be allowed to access and view the student's records without written permission from the student if the student is still a dependent for tax purposes. In most cases, with the discretion of the principal or the superintendent, the student will be able to make decisions and sign documents rather than requiring parental permission or signature.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A SENDING DISTRICT

The school district will participate in open enrollment as a sending district. As a sending district, the board will allow resident students who meet the requirements to open enroll to another public school district.

Parents requesting open enrollment out of the school district for their student will notify the sending and receiving school district in accordance with district practice. The notice is made on forms provided by the Iowa Department of Education. The forms are available at the central administration office.

Parents of children who will begin kindergarten and prekindergarten children enrolled in special education programs and included in the district's basic enrollment will file in the same manner set forth above.

The receiving district will approve or deny open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the board's approval of the application. The receiving district's superintendent will notify the parents and send the other school district by mail within five working days of the school district's action to approve or deny the open enrollment request.

The board will not approve a student's request to allow the receiving district to enter the school district for the purposes of transportation.

An open enrollment request out of the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factor for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs. The area education agency director of special education serving the receiving district will determine whether the program is appropriate. The special education student will remain in the school district until the final determination is made.

It is the responsibility of the superintendent to maintain open enrollment request applications and notice forms. It will also be the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

The school district will participate in open enrollment as a receiving district. As a receiving district, the board will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The board will have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The board will take action on the open enrollment at the next regular school board meeting. The superintendent will approve within 30 days incoming kindergarten applications; good cause application; or continuation of an educational program application.

The superintendent will notify the sending school district and parents within five working days of the school district's action to approve or deny the open enrollment request.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Students in grades nine through twelve open enrolling into the school district will be eligible for participation in interscholastic athletics, at the varsity level, in accordance with applicable laws.

Parents of students whose open enrollment requests are approved by the (board or superintendent) are responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The area education agency director of special education serving the school district will determine whether the program is appropriate. The special education student will remain in the sending district until the final determination is made. For children requiring special education, the receiving district will complete and provide to the resident district the documentation needed to seek Medicaid reimbursement for eligible services.

The policies of the school district will apply to students attending the school district under open enrollment.

It is the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

HOMELESS CHILDREN AND YOUTH

Responsibility. The District shall make reasonable efforts to identify homeless children and youth within the District, shall encourage their enrollment in school, shall eliminate existing barriers in District policies and procedures which may serve as barriers to their enrollment, and shall ensure that homeless children and youth have equal access to the same free public education, including public preschool education, as is provided to other children and youth.

Definitions.

“Homeless children and youth” means individuals from age 3 through age 21 who lack a fixed, regular, and adequate nighttime residence, including children and youth who are:

- sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
- living in emergency or transitional shelters;
- abandoned in hospitals;
- awaiting foster care placement;
- living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- children and youth who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- migratory children who qualify as homeless because they are living in circumstances described in this definition.

Incarcerated children and youth and children and youth in foster care are not considered homeless.

“School of origin” means the school that the homeless child or youth attended when permanently housed or the school in which the homeless child or youth was last enrolled.

“Unaccompanied youth” means a youth not in the physical custody of a parent or guardian, including youth living in runaway shelters, abandoned buildings, cars, on the streets, or in other inadequate housing, youth denied housing by their families, and school-age unwed mothers, living in homes for unwed mothers, who have no other housing available.

Liaison. A staff member designated by the Superintendent, shall serve as the District’s liaison for homeless children and youth. The liaison shall ensure that:

- homeless children and youth are identified by school personnel and through coordination activities with other entities and agencies;
- homeless children and youth enroll in school and have a full and equal opportunity to succeed in school;
- homeless children and youth receive educational services for which they are eligible, including Head Start and preschool programs administered by the District, and referrals to health, mental health, dental and other appropriate services;

- parents and guardians of homeless children and youth are informed of available educational and related opportunities provided to their children and of the opportunities for the parents and guardians to participate in the education of their children;
- the District disseminates public notices in places in which homeless children and youth receive services of their educational rights;
- the District informs parents, guardians, and unaccompanied youth of transportation services, including to and from the school of origin, and provides assistance in accessing the transportation to school;
- enrollment disputes are properly mediated.

The liaison shall also assist parents, guardians and unaccompanied youth in enrolling in school and accessing school services, obtaining student records, arranging for immunizations, and shall help to coordinate transportation services.

No Segregation. Homeless children and youth shall not be separated from the mainstream school environment on the basis of their status as homeless. Homeless children and youth may be segregated from other students only for short periods of time as necessary for health or safety reasons or to provide temporary, special and supplemental services to meet the unique needs of homeless students. Homeless children and youth shall not be stigmatized or isolated on the basis of their status as homeless. Records indicating their status as homeless shall be maintained in accordance with confidentiality requirements.

Immunization Records. A homeless child or youth will not be denied enrollment for lack of immunization records if the child is transferring from another school and the school confirms the presence of the immunization record. The District liaison will make a reasonable effort to locate immunization records from the information provided or will arrange for the student to receive immunizations.

Student Records. Homeless children and youth transferring into the District may provide student records directly to the District. The District will not require that the records be forwarded from another district or school before the child may enroll. The District will then request the student's records from the previous district or school attended by the student. Homeless children and youth transferring out of the District may be provided directly copies of student records to take with them.

Waiver of School Fees. School fees shall be waived in accordance with the District's policy on waiver of fees or if necessary for the homeless child or youth to obtain equal access to a free public education. The District liaison shall also assist students in accessing resources for appropriate school clothing.

Free and Reduced-Price Meals. The application process for free and reduced price meals shall be expedited for homeless children and youth. The District may determine if a student is homeless and requires free meals without completing the full application process.

School Placement. School placement determinations for homeless children and youth shall be made on the basis of the best interests of the homeless child or youth. The District will, to the extent feasible, keep a homeless child or youth in the school of origin, unless the parent or guardian or unaccompanied youth requests another school and the District concurs in attendance at the preferred school. If the District sends a homeless child or youth to a school other than the school of origin or a school requested by the parent, guardian, or unaccompanied youth, the District

will provide a written explanation of its decision with notice of the right to appeal the decision pursuant to State appeal procedures.

The placement determination shall be a student-centered, individualized determination. Factors to be considered may include the age of the student, the distance of the commute and the impact on the student's education, personal safety issues, the student's need for special education and related services, the length of the anticipated stay in temporary shelter or other temporary location, and the time remaining in the school year. Homeless children and youth may be assigned to other schools if necessary to receive a free and appropriate public education in accordance with a special education IEP.

Transportation. If a homeless child or youth continues to live in the District but in a different attendance area than the school the student was previously attending in the District, the District, at the request of the parent, guardian, or at the request of the District liaison on behalf of an unaccompanied youth, shall provide or arrange for transportation to and from the school previously attended. If the homeless child or youth is no longer living in the District, but is continuing his or her education in the District, the District will apportion the responsibility and costs for providing the child with transportation with the district where the child is currently living.

Conflicts With Other Policies. Provisions in this policy shall supersede any conflicting provisions in other District policies, regulations or procedures.

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

CARE OF SCHOOL PROPERTY/VANDALISM

Students will treat school district property with the care and the respect they would treat their own property. Students found to have destroyed or otherwise harmed school district property may be required to reimburse the school district. They may be subject to discipline under board policy and the school district rules and regulations. They may also be referred to local law enforcement authorities.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative rules regarding this policy.

STUDENT EXPRESSION AND STUDENT PUBLICATIONS

Student Expression

It is the goal of the district to protect the educational environment for all students to help ensure it is free from substantial disruption or infringement upon their rights. Student expression should be appropriate to help ensure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

While students will generally be allowed to express their viewpoints and opinions, in certain qualifying circumstances, student speech may require administrative regulation to help ensure the safety and welfare of the school community. The district may regulate speech that: causes or is reasonably anticipated to cause a material and substantial disruption to the education environment; infringes upon the rights of others; is obscene or lewd; is school sponsored; and/or promotes illegal activity. The administration, when making this judgment, will consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. The expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

The superintendent may develop procedures for safely addressing qualifying types of mass protests by students, including walk-ins and walk-outs. Walk-ins occur when students leave their learning environments during school hours and gather in a group or groups with the purpose of promoting a belief or beliefs. Walk-outs occur when students leave their learning environments during school hours and gather in a group or groups off district property with the purpose of promoting a belief or beliefs.

The superintendent is encouraged to obtain feedback from community stakeholders in the development of these procedures. The goal of the procedures shall be to address student safety, maintain the education environment and promote communication during demonstrations while remaining viewpoint neutral.

Students who violate this policy may be subject to disciplinary measures. Employees are responsible for helping to ensure students' expression is in keeping with this policy. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

Student Publications

Students may produce official school publications as part of the curriculum under the supervision of a faculty advisor and the principal. Official school publications include material produced in journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

STUDENT EXPRESSION AND STUDENT PUBLICATIONS

Any expression made by students, including student expression in official school publications, is not an expression of official school policy. The school district, the board, and the employees or officials are not liable in any civil or criminal action for any student expression made or published by students unless the employees or officials have interfered with or altered the content of the student speech or expression. The liability, if any, is only to the extent of the interference or alteration of the speech or expression.

Official school publications are free from prior restraint by employees or officials except as provided by law. A faculty advisor will supervise student writers to maintain professional standards of English and journalism and to comply with the law including, but not limited to, the restrictions against unlawful speech. The production of official school publications is guided by the law and by the ethical standards adopted by professional associations or societies of journalism.

Persons, other than students, who believe they have been aggrieved by student expression in a student-produced official school publication will follow the grievance procedure outlined in board policy 213.1. Students who believe their freedom of expression in a student-produced official school publication has been restricted will follow the grievance procedure outlined in board policy 502.4.

The superintendent is responsible for developing a student publications code. This code will include, but not be limited to, reasonable rules including time, place, and manner of restrictions. The superintendent will also be responsible for distributing this policy and the student publications code to the students and their parents.

NOTE: This policy represents the current status of students' first amendment rights. This is a mandatory policy and accompanying regulation required by Iowa Code ch. 279.73. Schools are urged to handle all protests through a strictly viewpoint neutral lens. Districts should consider the need to balance opposing views. If one social issue is permitted, other opposing viewpoints should also be permitted.

STUDENT EXPRESSION AND STUDENT PUBLICATIONS CODE

- A. **Student Expression defined:** Student Expression is speech, action or other forms of expression which convey a student's beliefs, views or opinions.
- B. **Official school publications defined:** An "official school publication" is material produced by students in journalism, newspaper, yearbook, or writing classes and distributed to students either free or for a fee.
- C. **Limitations to Student Expression**
1. No student will express, publish or distribute publication material which is:
 - a. obscene;
 - b. libelous;
 - c. slanderous; or
 - d. encourages students to:
 - 1) commit unlawful acts;
 - 2) violate lawful school regulations;
 - 3) cause the material and substantial disruption of the orderly and efficient operation of the school or school activity;
 - 4) disrupt or interfere with the education program;
 - 5) interrupt the maintenance of a disciplined atmosphere; or
 - 6) infringe on the rights of others.
- D. **Responsibilities of students for official school publications.**
1. Students writing or editing official school publications will assign and edit the news, editorial and feature contents of the official school publications subject to the limitations of the student publications code and the law.
 2. Students will strive to achieve professional standards of accuracy, fairness, objectivity and thoroughness in each and every aspect of official school publications.
 3. Students will strive to achieve professional standards of grammar, usage, punctuation and spelling for clarity and accuracy of official school publications.
- E. **Responsibilities of faculty advisors for official school publications.**
- Faculty advisors will supervise student writers to maintain professional standards of English and journalism and to comply with the law including, but not limited to, the restrictions against unlawful speech. Official school publications are produced under the supervision of a faculty advisor. Faculty advisors to students producing official school publications shall supervise the production of the student staff in order to maintain professional standards of English journalism. District employees acting within the scope of their professional ethics will not suffer adverse employment action or be retaliated against for acting to protect a student for engaging in authorized student expression or for refusing to infringe on protected student expression.
- F. **District employee rights**
- Any District employee or official, acting within the scope of that person's professional ethics, if any, shall not be dismissed, suspended, disciplined, reassigned, transferred, subject to termination

STUDENT EXPRESSION AND STUDENT PUBLICATIONS CODE

or nonrenewal of a teaching contract or extracurricular contract, or otherwise retaliated against for acting to protect a student for engaging in expression protected by law, or refusing to infringe upon student expression that is protected by law.

G. **Liability**

Student expression, including student expression in an official school publication will not be deemed to be an expression of the school district. The school district, the board, and the employees or officials are not liable in any civil or criminal action for any student expression made or published by students unless the employees or officials have interfered with or altered the content of the student expression. The liability, if any, is only to the extent of interference or alteration of the speech or expression.

H. **Appeal procedure**

1. Students who believe they have been unreasonably restricted in their exercise of expression in an official student publication will seek review of the decision through the student grievance procedure, under board policy 502.4.
2. Persons who believe they have been aggrieved by a student-produced official student publication will file their complaint through the citizen grievance procedure, under board policy 213.1.

I. **Time, place and manner of restrictions on student expression.**

1. Student expression may be conveyed and official student publications may be distributed in a reasonable manner on or off school premises.
2. Student expression and distribution of official school publications in a reasonable manner will not encourage students to:
 - a. commit unlawful acts;
 - b. violate school rules;
 - c. cause the material and substantial disruption of the orderly and efficient operation of the school district or school activity;
 - d. disrupt or interfere with the education program;
 - e. interrupt the maintenance of a disciplined atmosphere; or
 - f. infringe on the rights of others.

STUDENT COMPLAINTS AND GRIEVANCES

Creating an environment where students feel comfortable addressing their concerns in a meaningful manner is vital to the learning process. It is the goal of the board to resolve student complaints at the lowest organizational level. Student complaints and grievances regarding board policy or administrative regulations, or other matters should first be addressed to the student's teacher or another licensed employee, other than the administration, for resolution of the complaint.

If the complaint cannot be resolved by a student's teacher or other licensed employee, the student may discuss the matter with the principal within five working days of the employee's decision. If the matter cannot be resolved by the principal, the student may discuss it with the superintendent within five working days after speaking with the principal.

If the matter is not satisfactorily resolved by the superintendent, the student may ask to have the matter placed on the board agenda of a regularly scheduled board meeting in compliance with board policy. The board retains discretion as to whether to consider or take action on any complaint.

STUDENT LOCKERS

Student lockers are the property of the school district and are provided for student convenience. Students shall use the lockers assigned to them for storing their school materials and personal items necessary for attendance at school. It shall be the responsibility of each student to keep the student's assigned locker clean and undamaged. The expenses to repair the damage done to a student's locker are charged to the student.

A student's locker can be searched whenever an administrator or teacher has a reasonable and articulable suspicion that a criminal offense or a school district policy, rule or regulation bearing on school order has been violated and the administrator or teacher has a reasonable and articulable belief that the search will produce evidence of the violation. Items in violation of school district policies, rules or regulations found in student lockers are confiscated. Illegal items will be turned over to law enforcement officials.

School administrators may conduct periodic, random inspections of student lockers without any suspicion of wrongdoing by the student. In such cases, the student may be given the opportunity to be present for the inspection. Another individual will be present during the inspection of lockers.

Lockers should be kept locked at all times. The office will NOT give out locker combinations to other student's lockers. PE lockers should be locked at all times when personal items are stored within them. The school assumes no liability or responsibility for items lost, stolen, or damaged on school property. WEAPONS

The board believes weapons, other dangerous objects and look-alikes in school district facilities cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

School district facilities are not an appropriate place for weapons, dangerous objects and look-alikes. Weapons and other dangerous objects and look-alikes will be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

Parents of students found to possess weapons, dangerous objects or look-alikes on school property are notified of the incident. Possession or confiscation of weapons, dangerous objects or look-alikes will be reported to law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Students bringing firearms to school or knowingly possessing firearms at school will be expelled for not less than one year. The superintendent has the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas, or otherwise defined by applicable law.

Weapons under the control of law enforcement officials or other individuals specifically authorized by the board are exempt from this policy. The superintendent may develop an administrative process or procedures to implement the policy. Code of Iowa Reference: 279.8; 724

SMOKING - DRINKING - DRUGS

The board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of beer, wine, alcohol, tobacco, other controlled substances, or "look alike" substances that appear to be tobacco, beer, wine, alcohol or controlled substances by students while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities. Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such a student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program will include:

- Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;
- A statement that students may be required to successfully complete an appropriate rehabilitation program;
- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;

SMOKING - DRINKING – DRUGS

A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and,
Notification to parents and students that compliance with the standards of conduct is mandatory.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

SEARCH AND SEIZURE

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and articulable suspicion to believe the student is in possession of illegal or contraband items or has violated school district policies, rules, regulations or the law affecting school order. The search is in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities.

The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, will not create a protected student area and will not give rise to an expectation of privacy with respect to the locker, desk, or other facility. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, non prescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco/nicotine, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

SEARCH AND SEIZURE CHECKLIST

I. What factors caused you to have a reasonable and articulable suspicion that the search of this student or the student's effects or automobile would turn up evidence that the student has violated or is violating the law, school policy, rules or regulations affecting school order?

A. Eyewitness account.

1. By whom: _____
2. Date/Time: _____
3. Place: _____
4. What was seen: _____

B. Information from a reliable source.

1. From whom: _____
2. Time received: _____
3. How information was received: _____
4. Who received the information: _____
5. Describe information: _____

C. Suspicious behavior? Explain.

D. Time of search: _____

E. Location of search: _____

F. Student told purpose of search: _____

G. Consent of student requested: _____

SEARCH AND SEIZURE CHECKLIST

II. Was the search you conducted reasonable in terms of scope and intrusiveness?

A. What were you searching for: _____

B. Where did you search? _____

C. Sex of the student: _____

D. Age of the student: _____

E. Exigency of the situation: _____

F. What type of search was being conducted: _____

G. Who conducted the search: _____

Position: _____ Sex: _____

H. Witness(s):

III. Explanation of Search.

A. Describe the time and location of the search:

B. Describe exactly what was searched:

C. What did the search yield: _____

D. What was seized: _____

E. Were any materials turned over to law enforcement officials?

F. Were parents notified of the search including the reason for it and the scope:

SEARCH AND SEIZURE REGULATION

I. Searches, in general.

- A. Reasonable and Articulate Suspicion: A search of a student will be justified when there are reasonable grounds for the suspicion that the search will turn up evidence that the student has violated or is violating the law or school district policy, rules, or regulations affecting school order.

Reasonable suspicion may be formed by considering factors such as the following:

- (1) eyewitness observations by employees;
- (2) information received from reliable sources;
- (3) suspicious behavior by the student; or,
- (4) the student's past history and school record although this factor alone is not sufficient to provide the basis for reasonable suspicion.

- B. Reasonable Scope: A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the objectives of the search. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:

- (1) the age of the student;
- (2) the sex of the student;
- (3) the nature of the infraction; and
- (4) the emergency requiring the search without delay.

II. Types of Searches

A. Personal Searches

1. A student's person and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe the student is in possession of illegal or contraband items or has violated school district policies, rules, regulations or the law affecting school order.
2. Personally intrusive searches will require more compelling circumstances to be considered reasonable.
 - (a) Pat-Down Search: If a pat-down search or a search of a student's garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.
 - (b) A more intrusive search, short of a strip search, of the student's person, handbags, book bags, etc., is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

SEARCH AND SEIZURE REGULATION

B. Locker and Desk Inspections

Although school lockers and desks are temporarily assigned to individual students, they remain the property of the school district at all times. The school district has a reasonable and valid interest in ensuring the lockers and desks are properly maintained. For this reason, lockers and desks are subject to unannounced inspections and students have no legitimate expectations of privacy in the locker or desk. Periodic inspections of all or a random selection of lockers or desks may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such searches will be confiscated by school officials and may be turned over to law enforcement officials.

The contents of a student's locker or desk (coat, backpack, purse, etc.) may be searched when a school official has reasonable and articulable suspicion that the contents contains illegal or contraband items or evidence of a violation of law or school policy or rule. Such searches should be conducted in the presence of another adult witness when feasible.

C. Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

INTERVIEWS OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students are made through the principal's office. Upon receiving a request, it is the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal will attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, administration will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper warrant.

USE OF MOTOR VEHICLES

The board recognizes the convenience to families and students of having students drive to and park at their school attendance center. Driving a motor vehicle to and parking it at the student's attendance center is a privilege. The school district/personnel are not responsible for the care of vehicles or personal property within vehicles while in the school lot. Drivers are expected to drive in a safe manner at all times while on campus. Reckless or unsafe driving on campus will result in loss of parking privileges on campus.

Students who drive to and park at their school attendance center shall only drive to and park at their designated attendance center or at either their attendance center or a shared district's attendance center for the purpose of attending extracurricular activities. Students may not loiter around or be in their vehicle during the school day without permission from the principal. Students shall leave their attendance center when there is no longer a legitimate reason for them to be at their attendance center. Students who drive shall enter and leave the parking lot by the routes designated by the principal.

Students who live within one mile of school, and would not otherwise be eligible for a student driving permit, may be eligible for a student driving permit, for driving to and from school and school activities and practices, at the discretion of the administration.

Students who wish to drive to and park at their school attendance center shall comply with the rules and regulations established by the building principal. Failure to comply with this policy or the school district rules shall be reason for revocation of school driving and parking privileges as well as other disciplinary action including suspension and expulsion.

Approved December 9, 2002

Reviewed March 10, 2008, December 14, 2015, October 14, 2019, December 12, 2022

STUDENT CONDUCT

The board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior allows teachers to communicate more effectively with students.

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

Students who fail to abide by this policy, and the administrative regulations supporting it, may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

Removal from the classroom means a student is sent to the building principal's office. It is within the discretion of the person in charge of the classroom to remove the student.

Detention means the student's presence is required during non-school hours for disciplinary purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day, or on a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee or the building principal, disciplining the student.

In-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days.

Out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of-school suspension will not exceed ten consecutive school days unless due process is provided as required by federal and state law. A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

Probation means a student is given a conditional suspension of a penalty for a definite period of time in addition to being reprimanded. The conditional suspension will mean the student must meet the conditions and terms for the suspension of the penalty. Failure of the student to meet these conditions and terms will result in immediate reinstatement of the penalty.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

This policy is not intended to address the use of therapeutic classrooms or seclusion rooms for students.

Discipline of special education students, including suspensions and expulsions, will comply with the provisions of applicable federal and state laws.

STUDENT CONDUCT

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT SUSPENSION

Administrative Action

A. Probation

1. Probation is conditional suspension of a penalty for a set period of time. Probation may be imposed by the principal for infractions of school rules which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of probation. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. Written notice and reasons for the probation will be sent to the parents.

B. In-School Suspension

1. In-school suspensions may be imposed by the principal for infractions of school rules, which are serious but which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of an in-school suspension. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. In-school suspension will not be imposed for more than ten school days. Written notice and reasons for the in-school suspension will be sent to the student's parents.

C. Out-of-School Suspension

1. Out-of-school suspension is to be used when other available school resources are unable to constructively remedy student misconduct.
2. A student may be suspended out of school for up to ten school days by a principal for a commission of gross or repeated infractions of school rules, regulations, policy or the law, or when the presence of the student will cause interference with the maintenance of the educational environment or the operation of the school. The principal may suspend students after conducting an investigation of the charges against the student, giving the student:
 - a. Oral or written notice of the allegations against the student, and
 - b. The opportunity to respond to those charges.At the principal's discretion, the student may be allowed to confront witnesses against the student or present witnesses on behalf of the student.
3. Notice of the out-of-school suspension will be mailed no later than the end of the school day following the suspension to the student's parents and the superintendent. A reasonable effort is made to personally notify the student's parents and such effort is documented by the person making or attempting to make the contact. Written notice to the parents will include the circumstances which led to the suspension and a copy of the board policy and rules pertaining to the suspension.

D. Suspensions and Special Education Students

1. Students who have been identified as special education students may be referred for a review of the student's Individual Education Program (IEP). The IEP may be revised to include a continuum of intervention strategies and programming to change the behavior.
2. Students who have not been identified as special education students may be referred for evaluation after the student's suspension to determine whether the student has a disability and is in need of special education.

EXPULSION

Only the board may remove a student from the school environment for more than ten (10) consecutive days.

Students may be expelled for violations of board policy, school rules or the law. It is within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

It is within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal will keep records of expulsions in addition to the board's records.

When a student is recommended for expulsion by the board, the student is provided with:

1. Notice of the reasons for the proposed expulsion;
2. The names of the witnesses and an oral or written report on the facts to which each witness testifies unless the witnesses are students whose names may be released at the discretion of the superintendent;
3. An opportunity to present a defense against the charges and provide either oral testimony or written affidavits of witnesses on the student's behalf;
4. The right to be represented by counsel; and
5. The results and finding of the board in writing open to the student's inspection.

In addition to these procedures, a special education student must be provided with additional procedures. A determination should be made of whether the student is actually guilty of the misconduct. A staffing team should determine whether the student's behavior is caused by the student's disability and whether the conduct is the result of inappropriate placement. Discussions and conclusions of this meeting should be recorded.

If the special education student's conduct is not caused by the disability, the student may be expelled or suspended for a long-term period following written notice to the parent and pursuant to the school district's expulsion hearing procedures. If the misconduct is caused by the disability and a change in placement is recommended, the change must be made pursuant to the placement procedures used by the school district.

FINES - FEES - CHARGES

The board believes students should respect school district property and assist in its preservation for future use by others. Students may be assessed fines, charges, or fees for the materials needed in a course, for overdue school materials, for participating in activities, or for misuse of school property.

The superintendent will inform the board of the dollar amount to be charged to students or others for fines, charges, or fees annually. Parents of students meeting specific financial eligibility standards will be eligible for a waiver of student fees or a reduction of student fees based upon the request of the parent. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Please check if the student or the student's family meets the financial eligibility criteria or is involved in one of the following programs:

Full waiver

- _____ Free meals offered under the Children Nutrition Program (CNP)
- _____ The Family Investment Program (FIP)
- _____ Transportation assistance under open enrollment
- _____ Foster care

Partial waiver

_____ Reduced priced meals offered under the Children Nutrition Program

Temporary waiver

If none of the above apply, but you wish to apply for a temporary waiver of school fees because of serious financial problems, please state the reason for the request:

Signature of parent, guardian: _____
or legal or actual custodian

STUDENT FEE WAIVER AND REDUCTION PROCEDURES

The board recognizes that while certain fees charged students are appropriate and authorized, certain students and their families are not financially able to pay the fees. The school district will grant either full waivers, partial waivers or temporary waivers depending upon the circumstances and the student or student's parents' ability to meet the financial criteria.

- A. Waivers -
 - 1. Full Waivers - a student will be granted a full waiver of fees charged by the school district if the student or student's parents meet the financial eligibility criteria for free meals under the Child Nutrition program, Family Investment Program, or transportation assistance under open enrollment. Students in foster care are also eligible for full waivers.
 - 2. Partial Waivers - a student will be granted a partial waiver of fees charged by the school district if the student or the student's parents meet the financial eligibility criteria for reduced price meals offered under the Child Nutrition program. *[A partial waiver is based on the same percentage as the reduced price meals.]*
 - 3. Temporary Waivers - a student may be eligible for a temporary waiver of fees charged by the district in the event the student's parents are facing financial difficulty. Temporary waivers may be applied for at any time throughout the school year and will not extend beyond the end of the school year.
- B. Application - Parents or students eligible for a fee waiver will make an application on the form provided by the school district. Applications may be made at any time but must be renewed annually.
- C. Confidentiality - The school district will treat the application and application process as any other student record and student confidentiality and access provisions will be followed.
- D. Appeals - Denials of a waiver may be appealed to the superintendent.
- E. Fines or charges assessed for damage or loss to school property are not fees and will not be waived.
- F. Notice - the school district will annually notify parents and students of the waiver. The following information will be included in registration materials.

Students whose families meet the income guidelines for free and reduced price lunch, the Family Investment Program (FIP), or transportation assistance under open enrollment, or who are in foster care are eligible to have their student fees waived or partially waived. Students whose families are experiencing a temporary financial difficulty may be eligible for a temporary waiver of student fees. Parents or students who believe they may qualify for temporary financial hardship should contact the principal, or secretary, for a waiver form. This waiver does not carry over from year to year and must be completed annually.

STUDENT ELIGIBILITY FOR EXTRACURRICULAR ACTIVITIES: CODE OF CONDUCT

Standards for participation in co-curricular activities

I. GENERAL PROVISIONS

A. PURPOSE

The purpose of this policy is to establish and provide for the enforcement of Academic Standards and Conduct Standards for students participating in co-curricular activities in grades 7 through 12 of the Decorah Community School District.

B. STATEMENT OF PHILOSOPHY

It is the belief of those concerned with the development of the youth of the Decorah Community Schools that membership and participation in co-curricular activities has a very positive effect in the development of constructive attitudes of citizenship. Among which may be listed are principles of justice, fair play, good sportsmanship, respect for rules and authority, respect for others and one's own health and physical well-being, development of leadership, group pride and teamwork, self-discipline, and values of self-sacrifice. It is also the District's belief that the individual family should be the guiding influence and determinant of student behavior.

It is further deemed important that participants, before starting in any of these programs, should be aware of the philosophy, opportunities, and policies and procedures under which they will be participating. Co-curricular activities are offered as an option and a privilege based not only on demonstration of a particular talent or ability, but also on demonstration of character embodying the values contained in this Policy.

Those who participate are expected to assume responsibility for maintaining high standards as defined by this Policy and the rules established by the activity's sponsor. Standards have been set for students who wish to participate at Decorah Middle School and High School. Included are provisions to promote honesty and cooperation so that each student is able to have a positive learning experience as a participant in the co-curricular activity program. In order to retain eligibility for participation in these activities students must exemplify high standards of behavior and conduct themselves as good citizens both in and out of school at all times. Students who represent the District in an activity are expected to serve as role models to other students and to members of the community. They are also expected to show respect toward the District they represent and to the fellow students and sponsors with whom they participate.

The other policies in regard to co-curricular participation will also be enforced. The Board strongly believes co-curricular activities are a privilege and not a right, and as a result students who participate in co-curricular events are held to a higher standard of academic performance and conduct.

C. ACTIVITIES SUBJECT TO THIS POLICY

All activities, clubs or organizations, other than regularly scheduled academic classes, that are approved by the Board of Education will be considered Co-Curricular activities. Examples of Co-Curricular activities subject to this policy include, but are not limited to: Art Club, Band, Baseball, Basketball, Bowling, Cheerleading, Choir, Community Club, Cross Country, "D" Club, Dramatics, Envirothon, Fire Squad, FFA Chapter, Flag Corps, Football, Gay/Straight Alliance, Golf, Mock Trial, Orchestra, National Honor Society, Robotics, Science Club,

Soccer, Softball, Special Olympics, Speech, Student Council, Swimming, Tennis, Track, Viking Yearbook, Volleyball, and Wrestling.

D. ATTENDANCE

A student must attend school for the afternoon, arriving by 11:30 a.m., on the same day he/she is to participate in any co-curricular activity, unless the activity is on a non-school day. Extenuating circumstances, when presented to the administration, will be evaluated and examined on an individual basis. If both the high school principal and activity director and/or his/her designee agree, permission to deviate from this Policy may be granted.

E. ESTABLISHMENT OF ACTIVITY-SPECIFIC RULES

Directors of activities subject to this Policy may make reasonable rules as they relate to their activities as long as the rules are approved by the high school principal or his/her designee, and are not in violation or contradiction of this Policy. Violation of these rules may result in limitation, suspension, or revocation of privileges or participation in these activities. Any consequence for violation of the rules of a specific activity will only be applied as to that activity.

II. ACADEMIC STANDARDS

In providing for the establishment and enforcement of academic standards for students participating in co-curricular activities, both local and state guidelines have been put in place to provide assistance to students and support the state law requirements. These guidelines are listed below.

A. STATE GUIDELINES

1. Students in grades 9-12 participating in interscholastic athletic competition for the IGHSAU (Iowa Girls High School Athletic Union) and IHSAA (Iowa High School Athletic Association) shall be subject to the Iowa Department of Education Scholarship Rules regarding academic eligibility. Students in grades 9-12 participating in interscholastic speech competition shall be subject to the IHSSA (Iowa High School Speech Association) rules regarding academic eligibility. Students in grades 9-12 participating in interscholastic music competition shall be subject to the IHSMA (Iowa High school Music Association) rules regarding academic eligibility.

2. The Department of Education, the IHSSA and the IHSMA rules require that:

- a. Students must receive credit in at least 4 subjects (each of one period or “hour” or the equivalent therefore) at all times.
- b. Students must pass all coursework and be making adequate progress toward graduation to remain eligible. Coursework taken from a post-secondary institution and for which District grants academic credit toward high school graduation shall be used in determining eligibility.
- c. If not passing all coursework at the end of the grading period in which a grade will appear on a transcript, student is ineligible to dress for and compete for the first 30 consecutive calendar days in the interscholastic activity in which the student is a contestant from the first legal competition date of that activity. Students in baseball and softball have the same penalty as other students. Any student declared ineligible according to state guidelines may be permitted and/or required to practice under the discretion of administration and the activity sponsor.
- d. If not passing all coursework at the end of the grading period in which a grade will appear on a transcript, student is ineligible for the first period of 30 consecutive calendar days in any event sanctioned or sponsored by the IHSSA or the IHSMA and those events that are competitive or evaluative in nature and are not sponsored by the IHSSA and the IHSMA in which the student is a contestant.
- e. A student with a disability and an IEP shall not be denied eligibility based on scholarship if the student is making adequate progress toward the student’s IEP goals, as determined by District officials.
- f. Summer school or other means may not be used to make up failing grades for eligibility purposes. All original failing grades (even those remediated for purposes other than eligibility) must be reported to any school which the student transfers.

- g. Cheer participants are treated in line with the Athletic Rule (30 Calendar Days)
- h. All music and drama activities are treated in line with the Speech and Music Rule (30 Calendar Days)
- i. Students may participate in the event if the public performance constitutes part of a grade for a course.
- j. The grading period shall be the final grading period of the semester and shall not include mid-term grades.
- k. Grades of a, "P", "D-" or better and "W" (withdrawn in a timely fashion) are passing grades.
- l. Grades of "F" and of "WF" (withdrawn, failing) are failing grades.
- m. A student who receives an "I" (incomplete) who then completes work by the deadline established by the teacher and administration to obtain a passing course grade shall remain eligible, including during the period of time the student has to obtain the passing grade. A student who does not complete the work by the established deadline to obtain a passing grade and receives a failing grade shall be subject to the academic eligibility rules.
- n. Students must pass at least four (4) courses in the preceding semester to be eligible to participate at all in the current semester.
- o. Courses taken under the Post Secondary Enrollment Option including Contracted Classes are included in the required four (4) courses.
- p. Incoming 9th grade students are eligible immediately even if they enter with a failing grade from the 8th grade.
- q. A transfer student from an in-state or out-of-state school is subject to all academic eligibility guidelines.

The first date of ineligibility for a student who becomes ineligible while in an activity will begin with the first school day following the day that the report card is mailed home.

B. DHS GUIDELINES

1. A student must be passing all classes at the midterm of each quarter and at the end of the 1st and 3rd quarter. In an attempt to assist students with academic performance, Decorah High School will require students who are not passing all classes at the mid-terms and end of the 1st and 3rd quarter to attend a weekly study table. This study table will be available to all students and is mandatory for students involved in activities who have received a failing grade at one of the assigned grading check periods. Once students are able to show the administration evidence that their grade is above failing they will not be required to attend the study table.
2. Study table will be offered from 3:00 until 4:30 PM on Wednesdays. Students will be required to attend the study table for its entirety and may be allowed to return to practice after they are finished with the study table at 4:30. Students will be allowed to practice and compete during this time period. Any student involved with activities who does not attend the study table when failing a class will be withheld from their current or future activities until their study table obligations are met.

For more information and examples, see Appendix 1, attached to this Policy.

C. DMS GUIDELINES

1. In Decorah Middle School's standards-based grading system, it is imperative that students maintain progress towards achieving the standards set forth in the curricula of each course. Not every student will progress through the standards at the same rate, so with regards to policy, eligibility will hinge on Learner Behaviors. Students participating in extra-curricular activities at DMS will be responsible, respectful, and engaged.
2. During the course of a season, there will be two eligibility checks spaced approximately two-three weeks apart. At the designated times, each participant's learner behavior progress will be checked. Any student that has a score of 1 will be placed on probation for one week. He/she must also complete a learning improvement plan within two days that will require input from both the teacher(s) and the coach. The purpose of the improvement plan will be to identify the action steps required to move the student from an NYP to a P on their Learner Behaviors. If a learning improvement plan is not completed and turned in within two days, the student will forfeit his/her eligibility for participation in the competition until it has been turned in with all necessary signatures.

3. At the end of the probation week, if the student has adhered to the plan and made the necessary corrections, they are fully eligible until the next check. If the student has not adhered to the plan and made the necessary corrections, he/she will forfeit the eligibility to participate in the competition. The student will still attend practice but will report to the 9th hour each day (before going to practice at 3:40) until the action steps of the Learning Improvement Plan have been fulfilled. As soon as the steps have been completed, the student returns to full eligibility status until the next check.

III. CONDUCT STANDARDS

A. POLICY VIOLATIONS

1. A student may lose eligibility under this Policy for any of the following behaviors:
 - a. possession, use, or purchase of tobacco products, including e-cigarettes;
 - b. possession, use, purchase, or attempted sale/purchase of illegal drugs or look alike, or the unauthorized possession, use, purchase, or attempted sale/purchase of otherwise lawful drugs without a prescription;
 - c. engaging in any act that would be a violation of local, state, or federal law or grounds for arrest or citation in the criminal or juvenile court system (excluding minor offenses such as traffic or curfew violations) regardless of whether the student is cited, arrested, convicted, or adjudicated for the act(s);
 - d. other inappropriate, disruptive or offensive conduct in violation of school district policy, regulation or student handbook provisions and/or interferes with the orderly operation of the school or the rights of any member of the student body, faculty or staff, including but not limited to, assault; refusing to cooperate with school officials or law enforcement authorities, acts of vandalism, hazing, bullying or harassment of other students and staff in any form, including inappropriate posts on social media.
2. Any violations of this Policy may be reported to law enforcement.
3. Any violation(s) of school rules which aggregate to a total of 40 in school suspension points, third offense truancy, and/or a suspension according to the student handbook.

B. ADMINISTRATIVE DETERMINATION OF VIOLATION

1. If it is alleged by any person that a student has violated these Conduct Standards, the principal or his/her designee shall promptly investigate such allegations. This investigation shall not be limited by any formal rules of evidence or procedure. The student shall be given notice, oral or written, of the allegations and will be given an initial opportunity to respond to the allegations as part of the investigation.
2. The principal, or his/her designee, shall make a preliminary determination based on a preponderance of the evidence whether the student has violated these Conduct Standards. The totality of the evidence, including the number, credibility and consistency of the witness(es) alleging that the student has violated the Conduct Standards shall be taken into consideration when making such determination. A determination that a student has violated the Conduct Standards shall be made without regard to whether the student is prosecuted or convicted for any alleged acts under Section IIIA.2 above.
3. A violation may include, but is not limited to:
 - a. If a student is found guilty by a court of law (however, a violation may be found without regard to whether a student is charged or convicted of any crime by authorities).

- b. If a student is referred to juvenile court services.
- c. If a student admits violating this policy.
- d. If a student was witnessed breaking this policy by one or more staff members, students or law enforcement.

C. NOTICE AND DUE PROCESS

1. The high school and middle school principals and assistant principals shall make a preliminary determination whether the student has violated this Policy, and shall notify the parent/guardian of their decision in a written Notice of Violation of Policy of Standards and Eligibility which shall contain the following:

- a. The student's name and the names and address of the student's parents or guardians.
- b. A statement as to the time, place and circumstances of the violation the student is alleged to have committed.
- c. A statement describing the sanction to be imposed upon the student for violating the Policy and the effective date on which such sanction shall commence.
- d. A statement that the principal's determination as to the student's violation of the Policy and the punishment imposed shall become immediately effective.

2. If timely requested, a student and his/her parent(s) or guardian(s) shall be provided a hearing with the high school or middle school principal. During the hearing, the student and his/her parent(s) or guardian(s) may present any information or argument against the preliminary determination. Within three (3) working days of the hearing, the Principal shall provide written notification of whether the preliminary determination is upheld, modified or reversed. The punishment imposed shall become final and effective, unless the parent(s) or guardian(s) of the student request a review by the superintendent within three (3) working days.

3. If timely requested, a student and his/her parent(s) or guardian(s) shall be provided a hearing with the superintendent. During the hearing, the student and his/her parent(s) or guardian(s) may present any information or argument against the determination made by the high school or middle school principal. Within three (3) working days of the hearing, the Superintendent shall provide written notification of whether the determination made by the high school principal is upheld, modified or reversed. The punishment imposed shall become final and effective, unless the parent(s) or guardian(s) of the student request a review by the Board of Education within three (3) working days by delivering a written appeal notice to the board secretary.

4. If timely requested, a student and his/her parent(s) or guardian(s) shall be provided a hearing before the Board of Education. The secretary shall schedule the appeal for the next regular or special meeting of the Board of Education, unless otherwise agreed to by parent(s) or guardian(s) of the student involved. During the hearing, the student and his/her parent(s) or guardian(s) may present any information or argument against the determination made by the superintendent. The decision of the Board of Education shall be set forth in the written minutes of the Board and may affirm, reverse or modify the decision of the Superintendent. The decision of the Board of Education shall be the final determination of the Decorah Community School District.

5. All consequences will remain in force and effect during an appeals process unless or until they are reversed or altered by the appropriate authority.

D. SANCTIONS

1. Violations of the Conduct Standards will result in suspension of the privilege to participate for a period of time as described in Appendix 2. The maximum period of ineligibility for a first offense shall be six (6) weeks. The maximum period of ineligibility for a second offense shall be twelve (12) weeks. The maximum period of ineligibility for a third offense is one calendar year from the date of the third violation. The maximum period of ineligibility shall run only during those weeks in which interscholastic competition takes place and in activities in which the student normally participates.

2. An individual making a truthful report of a violation of the Conduct Standards to a school administrator within four (4) calendar days of the occurrence of the violation is a self-report. In order to receive the sanction of a self-report, a student must also follow up with

a written and signed statement of confirmation to the activities director or his/her designee. This statement needs to be signed by both the student and the parent/guardian. Individuals participating in a school event after violating the Policy, but prior to making a self-report or administrative discovery, will be suspended with no opportunity for a reduced suspension.

3. A student who has been declared ineligible for participation in co-curricular activities by another school district who then enrolls in the Decorah Community School District shall be ineligible for participation in co-curricular activities in the Decorah District for the balance of the period of ineligibility as if the student were still enrolled in the former district, except that the student shall generally be allowed to participate in practices regardless of the former district's policy on practices during periods of ineligibility. The student may file a written request with the building principal to have the term of ineligibility imposed by the former district reconsidered. The administration may shorten the period of ineligibility if it is determined that the student would have received a shorter period of ineligibility if the student had been enrolled at Decorah at the time the ineligibility was imposed by the former district. The number of periods of ineligibility imposed by former districts shall be considered when imposing sanctions for a violation of Board Policy 503.6 of the Decorah Conduct Standards after enrollment in the Decorah Community School District (e.g., if the student had one period of ineligibility during that calendar year prior to enrolling in Decorah, a violation of the Decorah Conduct Standards shall be treated as a second offense).

4. If a student violates the Conduct Standards at a time when he or she is ineligible to participate in co-curricular activities by virtue of a prior violation, the period of ineligibility for such subsequent violation shall commence after the period of ineligibility for all prior violations. Individuals that are academically ineligible will not serve their suspension until regaining their academic eligibility.

5. The administration shall have the authority to exercise reasonable discretion in the interpretation and administration of this Policy.

E. ADMINISTRATION OF THE SANCTIONS

1. Eligibility requirements begin at the conclusion of the 6th grade school year and end at the end of the summer following graduation.

2. Violations of the Conduct Standards are cumulative in two segments. The first segment will be at the conclusion of the students' 6th grade school year to the conclusion of the 8th grade school year. The second segment will be at the conclusion of the students' 8th grade school year through the end of the summer following graduation. At the conclusion of the students' 8th grade school year all prior violations will reset for the second segment of the students four years in high school.

3. The Standards of Conduct shall be in force twelve (12) months a year, on and off school property.

4. A student found in violation of the Conduct Standards who is required to be ineligible for a public performance that is graded, will be given the opportunity to complete an alternative assignment. This assignment will be created by the coach/sponsor and will allow the student to earn full credit for the performance missed.

5. When determining the number of contests and/or public performances to be missed, the administration will round off fractions to the nearest whole number using the standard rules for rounding numbers. Any student found in violation of the District's Substance Use/Abuse Policy on school grounds and/or at a school activity will not have the opportunity to receive the benefit of self-reporting according to the conduct standards.
6. Students must continue to participate in the activity from which they have been suspended for the length of the suspension. Failure to do so will result in the suspension being carried over to the next activity. Students must continue to practice with the team and meet the expectations of the coach/sponsor relative to all other participants during the suspension. Students will not, however, be allowed to dress and/or perform for competition and/or public performance.
7. Students unable to serve their suspension completely in one activity due to the end of that activity will have their suspension prorated in a consistent manner between activities. If a period of ineligibility extends beyond the regular season, ineligibility will extend to include tournament contests until the period of ineligibility is satisfied.
8. Students found in violation of the Policy may not register for a new activity after the state mandated/district defined start date to avoid a penalty at a later time from another activity.
9. Students involved in multiple activities will serve their suspension concurrently. For instance, a student involved in Basketball and Jazz Band will serve the suspension in both activities. No student will be permitted to participate in one activity while serving a suspension in another for a violation of the Conduct Standards.
10. If the student is currently not participating in an activity, the student will be ineligible in the next related activity in which he/she participates. Any student not involved for twelve (12) months in an activity would be eligible. If a student enters an activity in which he/she has not previously participated and begins and/or continues a period of ineligibility, the student must participate at a level expected of all other participants. If the student does not faithfully participate at a level deemed appropriate by the coach/sponsor and administration, the coach/sponsor and administration shall have the authority to suspend the student from the activity involved. If a student does not satisfactorily complete the activity, he/she will be deemed to be ineligible with the same penalty applied to the next activity in which the student chooses to participate.

To verify the reading and understanding of the preceding Standards for Participation and Eligibility in Co-Curricular Activities, the following statement must be signed by students and their parent or guardian.

DECORAH COMMUNITY SCHOOL DISTRICT

I am aware that there are standards for participation in and eligibility for co-curricular activities in the Decorah Community School District. In the event that I participate in any co-curricular activity, I understand the responsibilities, the expectations of me, and the implications for any violations of those responsibilities and expectations.

Appendix 1

Situational Examples.

- Student A is a football player and fails a class first semester. Student A only participates in football. Student A is academically ineligible for the first thirty (30) calendar days of the fall from the first legal playing date. (Athletic Eligibility Rule)
- Student B (11th grade student) is a Football player and fails a class first semester. Student B has never participated in track before in high school. Student B goes out for track and will be ineligible for the first thirty (30) calendar days from the Monday of the week of the first competition in track. Student B will be eligible for the first competition in football the next fall. (Athletic Eligibility and Decorah Rule).
- Student C is a Girls Basketball Player and is in Madrigal Singers and fails a first semester course. Student C is ineligible for the first thirty (30) calendar days of Basketball in the 2nd Semester (Athletic Eligibility Rule) and the first thirty (30) calendar days of Madrigal Singers (State Music Rule).
- Student D is a Girls Basketball Player and in the Fall Drama Production. Student D fails a first semester course. Student D is ineligible for the first thirty (30) calendar days of Basketball in the 2nd Semester (Athletic Eligibility Rule) and the first thirty (30) calendar days of public performance in Drama Activities (Decorah Rule).
- Student E is a Cheerleader and in Jazz Band and fails a first semester course. Student E is ineligible for the thirty (30) calendar days of Cheerleading in the winter (Decorah Rule) and for all Jazz Band activities not associated with a grade for thirty (30) calendar days (State Music Rule).
- Student F is a Winter Cheerleader, Softball Player, and in Band and fails a course second semester. Student F is ineligible for Softball for thirty (30) calendar days from the date report cards are sent out (Athletic Eligibility Rule). She will be eligible for winter cheerleading and band once she serves her ineligibility in softball and finishes in good standing.
- Student G is a member of the Concert Choir and Boys Soccer team and fails a class first semester. Student G is ineligible for the first thirty (30) calendar days of Concert Choir (State Music Rule, Decorah Rule) and the first thirty (30) calendar days of Boys Soccer (Athletic Eligibility Rule).
- Student H is a member of the Football team. Student H passes only two courses in the second semester. Student H is ineligible for thirty (30) calendar days in the fall (Athletic Eligibility Rule).

- Student I participates in Girls Soccer and Girls Golf and fails a class first semester. Student I is ineligible for the first thirty (30) calendar days of the Girls Soccer and Golf season from the first date of competition of the sport with the first competition date (Athletic Eligibility Rule).

A complete explanation of the new guidelines may be viewed in the high school office.

9-12 Academic Eligibility Requirements

Time Period	Requirement
1 st Quarter Midterm	Study Table
1 st Quarter	Study Table
2 nd Quarter Midterm	Study Table
1 st Semester	30 Calendar Days
3 rd Quarter Midterm	Study Table
3 rd Quarter	Study Table
4 th Quarter	Study Table
2 nd Semester	30 Calendar Days

Appendix 2

1st Offense

	Period of Ineligibility	Counseling
Self-Report	1/6 of Activity	Recommended
Administrative Discovery	1/3 of Activity	Recommended

2nd Offense

	Period of Ineligibility	Counseling
Self-Report	1/2 of Activity	Required at Student/Family Expense
Administrative Discovery	1/2 of Activity	Required at Student/Family Expense

Upon successful completion of a period of ineligibility and approved evaluation and counseling by the administration the student will regain his/her eligibility. Student is responsible for all counseling costs.

3rd Offense and Subsequent Offenses

	Period of Ineligibility	Counseling
Self-Report	1 Calendar Year	Required at Student/Family Expense
Administrative Discovery	1 Calendar Year	Required at Student/Family Expense

Upon successful completion of a period of ineligibility and approved evaluation and counseling by the administration the student will regain his/her eligibility. Student is responsible for all counseling costs.

The following are examples of what the penalty MIGHT be in a typical season (less postseason appearances), using the current defined contest limitations of the Iowa Girls High School Athletic Union and the Iowa High School Athletic Association, along with “typical” schedules for our Fine Arts Programs. These are only sample suspension periods that may be modified by the Activities Director or his/her designee and the actual number of events will be calculated annually.

Sanctions Examples

CORPORAL PUNISHMENT, MECHANICAL RESTRAINT AND PRONE RESTRAINT

The use of corporal punishment, mechanical restraint and/or prone restraint is prohibited in all schools. Corporal punishment is defined as the intentional physical punishment of a student. It includes the use of unreasonable or unnecessary physical force or physical contact made with the intent to harm or cause pain. No employee is prohibited from any of the following which are not considered corporal punishment:

- Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
 - To quell a disturbance or prevent an act that threatens physical harm to any person.
 - To obtain possession of a weapon or other dangerous object(s) within a student's control.
 - For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
 - For the protection of property as provided for in IOWA CODE section 704.4 or 704.5.
 - To remove a disruptive student from class or any area of school premises or from school-sponsored activities off school premises.
 - To protect a student from the self-infliction of harm.
 - To protect the safety of others.
- Using incidental, minor, or reasonable physical contact to maintain order and control.

Mechanical restraint means the use of a device as a means of restricting a student's freedom of movement. Mechanical restraint does not mean a device used by a trained individual for specific approved therapeutic or safety purposes for which the device was designed and, if applicable, prescribed, including restraints for medical immobilization, adaptive devices or mechanical supports used to allow greater freedom of mobility than would be possible without use of such devices or mechanical supports; and vehicle safety restraints when used as intended during the transport of a student in a moving vehicle.

Prone restraint means any restraint in which the student is held face down on the floor.

Reasonable force should be commensurate with the circumstances of the situation. The following factors should be considered in using reasonable physical force for the reasons stated in this policy:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student's behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any, including mental and psychological injury;
5. The motivation of the school employee using physical force.

Upon request, the student's parents are given an explanation of the reasons for physical force.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

 502 Student Rights and Responsibilities
 503 Student Discipline
 503.6 Physical Restraint and Seclusion

Approved December 9, 2002
Reviewed March 10, 2008, December 14, 2015, October 14, 2019, December 12, 2022

PHYSICAL RESTRAINT AND SECLUSION OF STUDENTS

It is the goal of the district that all students can learn and grow in a safe and peaceful environment that nurtures the student and models respect for oneself and others. On occasion, trained district employees and others may have to use behavior management interventions, physical restraint and/or seclusion of students. The goal of these interventions is to promote the dignity, care, safety, welfare and security of each child and the school community. With this objective in mind, the district will prioritize the use of the least restrictive behavioral interventions appropriate for the situation.

Physical restraint means a personal restriction that immobilizes or reduces the ability of a student to move the student's arms, legs, body, or head freely. Physical restraint does not mean a technique used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which the technique was designed and, if applicable, prescribed. Physical restraint does not include instructional strategies, such as physically guiding a student during an educational task, hand-shaking, hugging, or other non-disciplinary physical contact.

Seclusion means the involuntary confinement of a child in a seclusion room or area from which the child is prevented or prohibited from leaving; however, preventing a child from leaving a classroom or school building are not considered seclusion. Seclusion does not include instances when a school employee is present within the room and providing services to the child, such as crisis intervention or instruction.

Physical restraint or seclusion is reasonable or necessary only:

- To prevent or terminate an imminent threat of bodily injury to the student or others; or
- To prevent serious damage to property of significant monetary value or significant non monetary value or importance; or
- When the student's actions seriously disrupt the learning environment or when physical restraint or seclusion is necessary to ensure the safety of the student or others; and
- When less restrictive alternatives to seclusion or physical restraint would not be effective, would not be feasible under the circumstances, or have failed in preventing or terminating the imminent threat or behavior; and
- When the physical restraint or seclusion complies with all applicable laws.

Prior to using physical restraint or seclusion, employees must receive training in accordance with the law. Any individual who is not employed by the district but whose duties could require the individual to use or be present during the use of physical restraint or seclusion on a student will be invited to participate in the same training offered to employees on this topic.

When required by law, the superintendent or the superintendent's designee will ensure a post-occurrence debriefing meeting is held, maintain documentation and fulfill all reporting requirements for each occurrence of physical restraint or seclusion as required by law.

DEBRIEFING LETTER TO GUARDIAN OF STUDENT INVOLVED IN AN OCCURRENCE WHERE
PHYSICAL RESTRAINT AND/OR SECLUSION WAS USED

[This letter and the enclosed report may be transmitted electronically via email or fax, picked up in person, or mailed. If the district and the guardian do not agree on how to transmit this letter, it must be mailed via postage prepaid, first class mail to the guardian within 3 school days of the occurrence.]

Dear [Guardian],

Recently, your student [*name*] was involved in an occurrence at school that required the physical restraint and/or seclusion of your student as defined by 281 Iowa Administrative Code Ch. 103. A report related to this occurrence is enclosed with this letter.

The law requires debriefing meetings be held for such occurrences in the following circumstances:

- Following the first instance of seclusion or physical restraint during a school year;
- When any personal injury occurs as a part of the use of seclusion or physical restraint;
- When a reasonable educator would determine a debriefing session is necessary;
- When suggested by a student's IEP team;
- When agreed to by the guardian and school officials; and
- After seven instances of seclusion or physical restraint of the student.

This letter is intended to inform you that a debriefing meeting will be held on [*date within 5 days of transmission of letter, time, place*] because of [*reason from bulleted list above*]. The following employees will be in attendance at this meeting: [*list names and titles of employees*]. We are inviting you to attend this debriefing meeting to engage with us on topics related to this occurrence.

If you would like to reschedule the debriefing meeting, please contact me as soon as possible via email [*email address*] or telephone [*telephone number*], and at least one school day prior to the date and time listed for this debriefing meeting. Your student is allowed to attend this meeting with your consent, and you are welcome to bring a representative of your choosing if you wish. If you plan to bring a representative to this meeting, please let us know at least one school day prior to the meeting so that we have an opportunity to make arrangements.

We look forward to working with you to foster the continued health, safety and educational growth of your student.

[*Administrator name*], title

Date

Enclosure: Report related to student occurrence

DEBRIEFING MEETING DOCUMENT

[The following individuals must attend the debriefing meeting: employees who administered physical restraint or seclusion; an administrator or employee not involved in the occurrence; the administrator or employee who approved continuation of the physical restraint or seclusion; other relevant personnel designated by the school; if indicated by student's behavior in occurrence, an expert in behavioral/mental health or other discipline. The following individuals must be invited to attend the debriefing meeting: the parent or guardian of the student, the student with guardian's consent.]

Student name:	Date of occurrence:
Date of debriefing meeting:	Time of debriefing meeting:
Location of debriefing meeting:	
Names of individuals attending the debriefing meeting (must include the employees involved and at least one employee who was not involved):	Job title of employee and/or relation to student:
Documentation reviewed during meeting (must include at least the occurrence report; and BIP, IHP, IEP and/or safety plan if applicable):	
Identification of patterns of behavior and proportionate response, if any, in the student and employees involved:	
Possible alternative responses, if any, to the incident/less restrictive means, if any:	

This page left intentionally blank.

Additional resources, if any, that could facilitate those alternative responses in the future:
Plans for additional follow up actions, if any:

This form has been reviewed and completed by the undersigned employee. A written copy of this form has been sent to the student's guardian within three school days of the debriefing meeting.

USE OF PHYSICAL RESTRAINT AND SECLUSION WITH STUDENTS

The District will comply with 281 *Iowa Administrative Code* Ch. 103 for the use of physical restraint and seclusion with students, including, but not limited to:

- Physical restraint and seclusion will be used only by employees who have been trained in accordance with applicable law unless a trained employee is not immediately available due to the unforeseeable nature of the occurrence.
- As soon as practical after the situation is under control, but within one hour after either the occurrence or the end of the school day, whichever occurs first, the school will attempt to contact the student's parent or guardian using the school's emergency contact system.
- The seclusion or physical restraint is used only for as long as necessary based on research and evidence to allow the student to regain control of their behavior to the point that the threat or behavior necessitating the use of the seclusion or physical restraint has ended, or when a medical condition occurs that puts the student at risk of harm. Unless otherwise provided for in the student's written approved IEP, BIP, IHP or safety plan, if the seclusion or physical restraint continues for more than 15 minutes:
 - The student will be provided with any necessary breaks to attend to personal and bodily needs, unless doing so would endanger the child or others.
 - An employee will obtain approval from an administrator or administrator's designee to continue seclusion or physical restraint beyond 15 minutes. After the initial approval, an employee must obtain additional approval every 30 minutes thereafter for the continuation of the seclusion or physical restraint.
 - The student's parent or guardian and the school may agree to more frequent notifications than is required by law.
 - Schools and district employees must document and explain in writing the reasons why it was not possible for the employees to obtain approval, notify parents, or take action within prescribed time limits.
 - Schools and district employees who begin and then end use of non approved restraints will document and explain in writing the reasons why they had no other option but to use this type of behavioral intervention.
- The area of seclusion will be a designated seclusion room that complies with the seclusion room requirements in accordance with law, unless the nature of the occurrence makes the use of the designated seclusion room impossible, clearly impractical, or clearly contrary to the safety of the student, others, or both; in that event, the school must document and explain in writing the reasons why a designated seclusion room was not used.
- An employee must continually visually monitor the student for the duration of the seclusion or physical restraint.
- If an employee restrains a student who uses sign language or an augmentative mode of communication as the student's primary mode of communication, the student shall be permitted to have the student's hands free of physical restraint, unless doing so is not feasible in view of the threat posed.
- Seclusion or physical restraint shall not be used: as punishment or discipline; to force compliance or to retaliate; as a substitute for appropriate educational or behavioral support; to prevent property damage except as provided in law; as a routine school safety measure; or as a convenience to staff.

- The Superintendent or the Superintendent's designee will investigate any complaint or allegation that one or more employees violated any provisions of 281 Iowa Administrative Code Ch. 103. If the District determines a violation has occurred, corrective action will be taken up to and including termination of the employees involved. If the allegation or complaint involves a specific student the District will notify the parents or guardian of the involved student about the results of the investigation. If any allegation or complaint is also defined as abuse in 281 *Iowa Administrative Code* 102.2, the procedures listed in chapter 102 will apply.
- The District must comply with and implement Chapter 103 whether or not a parent consents to the use of physical restraint or seclusion.

Student Disclosure of Identity

It is the goal of the district to provide a safe and supportive educational environment in which all students may learn. As part of creating that safe educational environment, no employee of the district will provide false or misleading information to the parent/guardian of a student regarding that student's gender identity or intention to transition to a gender that is different from their birth certificate or certificate issued upon adoption.

If a student makes a request to a licensed employee to accommodate a gender identity, name, or pronoun that is different than what was assigned to the student in the student's registration forms or records, the licensed employee is required by Iowa law to report the request to an administrator. The school administrator receiving the report is required by Iowa law to report the request to the student's parent/guardian. This requirement also applies to all nicknames.

To maintain compliance with Iowa law and also provide efficiency in the reporting requirements listed above, the Superintendent will provide the opportunity for parents and guardians to list in the student's registration paperwork any and all nicknames used for students.

Approved September 11, 2023

REPORT OF STUDENT DISCLOSURE OF IDENTITY

Dear (Parent/Guardian) _____, This letter is to inform you that your student (student's name listed on registration) _____ has made a request of a licensed employee to (check all that apply): _____ make an accommodation that is intended to affirm the student's gender identity as follows:

_____ use a name, pronoun or gender identity that is different from the name, pronoun and/or gender identity listed on the student's school registration forms. The name, pronoun, or gender identity requested is _____.

If you would like to amend the student's registration paperwork to permit the student's requested accommodation and/or include the use of the above-referenced name/pronoun/gender identity, please complete the attached form and return it to the district administration office.

Sincerely, _____

Discipline of Students Who Make Threats of Violence or Cause Incidents of Violence

Discipline Policy

Discipline is designed to promote behavior that will enable students to learn and successfully participate in their educational and social environments. The district discipline policy for students who make a threat of violence or commit an act of violence is developed to help students understand their obligations to others in the school setting, secure the safety of all students, staff, and the community, and to correct student behavior if a violation occurs (2023 Iowa Acts, chapter 96 (House File 604), sec. 7, new section 279.79, subsection 1).

Students will conduct themselves in a manner fitting their age, grade level, and maturity, and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school-owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and tailored to the age, grade level, and maturity of the student.

Discipline and other responses to threats or incidents of violence by a student with a disability, including removal from a class, placement in a therapeutic classroom, suspensions, and expulsions, will comply with the provisions of applicable federal and state laws including, but not limited to, the IDEA, Section 504 of the Rehabilitation Act, and the Americans with Disabilities Act (2023 Iowa Acts, chapter 96 (House File 604), sec. 7, new section 279.79, subsection 3).

District Response to a Threat or Incident of Violence by a Student

Reporting a Threat of Violence or Incidence of Violence

In the case of any threat of violence or incident of violence that results in injury, property damage, or assault by a student, the teacher will report to the school principal or lead administrator within 24 hours of the incident. The principal or lead administrator will notify the parent or guardian of the student(s) who threatened or perpetrated an act of violence and the student(s) whom the threatened or perpetrated act of violence was made against within 24 hours after receipt of the teacher's report and complete an investigation of the incident as soon as possible. The classroom teacher may also notify the parent or guardian of the student who made the threat or caused the incident, and the parent or guardian of the student against whom the threat or incident was directed (2023 Iowa Acts, chapter 96 (House File 604), sec. 4).

An investigation will be initiated by the principal or lead administrator upon learning of an incident of violence or threat of violence through any credible means. If the principal or lead administrator finds that an incident of violence or threat of violence did occur, the administrator will determine the level of threat or incident by considering all aspects of the situation, including the student's intent and knowledge of the impact of their actions, their developmental level and context of the incident. The resolution will focus on identifying the cause behind the behavior and appropriate corrective action (2023 Iowa Acts, chapter 96 (House File 604), sec. 7, new section 279.79, subsections 1 and 4).

A student who makes a threat of violence, causes an incident of violence that results in injury or property damage, or who commits an assault, will be subject to escalating levels of discipline for each occurrence. When appropriate, referrals will be made to local law enforcement. The district retains the authority to assign the level of disciplinary measures appropriate to the severity of the threat of violence or incident of violence (2023 Iowa Acts, chapter 96 (House File 604), sec. 7, new section 279.79, subsection 5).

Threat of Violence

Threat of violence means a written, verbal, electronic, or behavioral message that either explicitly or implicitly expresses an intention to inflict emotional or physical injury, property damage, or assault.

Incident of Violence

Incident of violence means the intentional use of physical force or power against oneself, another person, a group or community or property resulting in injury, property damage or assault.

Injury

Injury means “physical pain, illness or any impairment of physical condition.” State v. McKee, 312 N.W.2d 907, 913 (Iowa 1981).

Property Damage

Property damage means any destruction, damage, impairment or alteration of property to which the individual does not have a right to take such an action. Property means real property, which includes any real estate, building, or fixture attached to a building or structure, and personal property, which includes intangible property (Iowa Code section 4.1(21)).

Assault

Assault means when, without justification, a student does any of the following:

an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal, when the act is a reasonably foreseeable incident of such sport or activity and does not create an unreasonable risk of serious injury or breach of the peace (Following Iowa Code section 708.1).

Definitions (consistent with the Department's Data Dictionary 2022-23)

Detention means the student's presence is required during non-school hours for disciplinary purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day or on a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee or the building principal disciplining the student.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

In-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days.

Out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of-school suspension will not exceed ten consecutive school days unless due process is provided as required by federal and state law. A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

Placement in an alternate learning environment means placement of a student in an environment established apart from the regular educational program that includes rules, staff and resources designed to accommodate student needs and to provide a comprehensive education consistent with the student learning goals and content standards established by the school district.

Removal from the classroom means a student is sent to the building principal's office. It is within the discretion of the person in charge of the classroom to remove the student.

Approved December 11, 2023

STUDENT GOVERNMENT

The student council provides for student activities, serves as a training experience for student leaders, promotes the common good, gives students a share in the management of the school, develops high ideals of personal conduct, acts as a clearinghouse for student activities, seeks to interest students in school district affairs and helps solve problems that may arise. Members of the council are student representatives who have direct access to the administration.

The principal, in conjunction with the students and licensed employees, will set forth the guidelines for the student government's elections, operations, and other elements of the government.

STUDENT ORGANIZATIONS

Secondary school student-initiated, non curriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time will mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings will not interfere with the orderly conduct of the education program or other school district operations. It is within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program will have priority over the activities of another organization.

Curriculum-Related Organizations

It will also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees are assigned to monitor approved meetings and may interact with curriculum-related organizations.

Non Curriculum-Related Organizations

Student-initiated, non curriculum-related organizations are provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of non curriculum-related groups. Such attendance is strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Employees will be assigned to monitor approved meetings. Employees will not participate in the meeting or assist in planning, criticizing, or encouraging attendance. Only students may be involved in and attend the non curriculum group's meetings.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT PERFORMANCES

Students, as part of the education program, may participate in contests or other public and private events approved by the superintendent that will be of benefit to the student and the education program. Performance at such events is a privilege.

Students, who perform at such events, serve as ambassadors of the school district and must conduct themselves in the same manner as required in the regular school day. Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures.

Students will be allowed to perform in these events only with proper permission and supervision and when the events do not disrupt the education program or other school district operations. The events must be approved by the superintendent, unless it involves unusual travel and expense, in which case the board must approve of the performance.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. In developing the administrative regulations, these guidelines should be followed:

- Performances by student groups below the high school level should be allowed on a very limited basis;
- All groups of students should have an opportunity to participate; and
- Extensive travel by one group of students should be discouraged.

It is within the discretion of the superintendent to determine whether the event will benefit the education program and the participating students. Contests or other performances by students unapproved by the superintendent are the responsibility of the parent and the student.

STUDENT FUNDRAISING

Students may raise funds for school-sponsored events with the permission of the school board. The school board delegates to the Superintendent the authority to approve routine student fundraising as deemed appropriate. Collection boxes for school fundraising must have prior approval from the school board or its designee before being placed on school property.

All funds generated from district-sponsored student fundraising will be placed in the district's student activity fund.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT FUNDRAISING REGULATIONS

Student fundraising can enhance a student's educational experience; but it must not be at the expense of the safety and education of the district's students. The following are additional regulations to assist the administration in developing procedures necessary for successful fundraising efforts.

Safety

- Students will not be asked to solicit door to door.
- Students who do not wish to engage in fundraising efforts will be provided an alternative community service option to apply toward credit of funds raised. The alternative option will not be unduly burdensome or onerous when compared to the fundraising activity.

Fiscal Responsibility

- All funds generated due to a student fund raising activity will be deposited into the district's student activity funds, pursuant to applicable laws and board policies.
- Funds raised for a participatory student activity will be equally applied to all students regardless of their participation in fundraising efforts.
- All funds generated from district sponsored student fundraising efforts will be deposited in the student activity fund.
- All funds generated from non-district sponsored student fundraising efforts will be deposited into an agency fund designated by the board for such purpose.
- No school district employee or other individual affiliated with the district may deposit student fund raising funds into any other account.
- All funds received from student fundraising are the property of the district.

Advertising/Promotion

- Any student fundraising activity which utilizes the district name, likeness and/or logo will be subject to board approval, and all other conditions of this policy and accompanying regulations.

STUDENT ACTIVITY PROGRAM

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and ability in the students during their school years and for their lifetime.

Students will have an opportunity to participate in a school activity unless the activity is not offered or the student cannot participate for disciplinary reasons. If the activity is an intramural or interscholastic athletic activity, students of the opposite sex will have a comparable opportunity for participation. Comparable opportunity does not guarantee boys and girls will be allowed to play on each other's teams when there are athletic activities available that will allow both boys and girls to reap the benefits of school activities, which are the promotion of additional interests and abilities in the students.

Student activity events must be approved by the superintendent unless they involve unusual travel expenses, in which case the board will take action. The events must not disrupt the education program or other school district operations.

A high school student who participates in school sponsored athletics may participate in a non-school sponsored sport during the same season with approval of the (superintendent, high school principal, athletic director).

Such outside participation will not conflict with the school sponsored athletic activity.

It is the responsibility of the superintendent to develop administrative regulations for each school activity. These regulations will include, but not be limited to, when physical examinations will be required, how and when parents will be informed about the risk of the activity, academic requirements, and proof of insurance on the student participating in certain activities. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity.

STUDENT PROGRESS REPORTS AND CONFERENCES

Students will receive a progress report at the end of each grading period. Students, who are doing poorly, and their parents, are notified prior to the end of the semester in order to have an opportunity to improve their grade. The board encourages the notification of students who have made marked improvement prior to the end of the semester.

Parent-teacher conferences will be held two times during the year to keep the parents informed.

Parents, teachers, or principals may request a conference for students in grades kindergarten through twelve in addition to the scheduled conference time. Parents and students are encouraged to discuss the student's progress or other matters with the student's teacher.

STUDENT PROMOTION - RETENTION - ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

The district shall adhere to the following:

- **Retention/Promotion in kindergarten – eighth grade:** The retention of a student will be determined based upon the judgment of the district's professional staff. When it becomes evident a student in grades kindergarten through eight may be retained in a grade level for an additional year, the parents will be informed prior to making the retention decision. It is within the sole discretion of the district to retain students in their current grade level and to deny promotion to a student.
- **Retention/Promotion in ninth – twelfth grade:** Students in grades nine through twelve will be informed of the required coursework necessary to be promoted each year. When it becomes evident a student in these grades will be unable to meet the minimum credit requirements for the year, the student and parents will be informed. It is within the sole discretion of the district to retain students in their current grade level and to deny promotion to a student.
- **Acceleration in kindergarten – twelfth grade:** Students in grades kindergarten through twelve with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements.
- **Retention or Acceleration in kindergarten – twelfth grade** may also occur in additional instances as provided by law.

Any student or parent who is not satisfied with the decision of the district's professional staff may seek recourse through policy 502.4 – *Student Complaints and Grievances*.

STUDENT HONORS AND AWARDS

The school district will provide a program that establishes honors and awards including, but not limited to, academic letters, scholarships and good citizenship awards for students to assist students in setting goals. Students are made aware of honors and awards and the action necessary on the part of the student to achieve them. Students who have not attended an accredited public or private school for their entire high school education, will not be eligible for honors and awards.

It is the responsibility of the superintendent to develop the administrative regulations regarding this policy.

TESTING PROGRAM

A comprehensive testing program is established and maintained to evaluate the education program of the school district and to assist in providing guidance or counseling services to students and their families.

No student is required, as part of any applicable program, funded by the United State Department of Education, to submit to a survey, analysis or evaluation that reveals information concerning:

- political affiliations or beliefs of the student or student's parent or guardian;±
- mental or psychological problems of the student or the student's family;
- sex behavior or attitudes;
- illegal, anti-social, self-incriminating or demeaning behavior;
- critical appraisals of other individuals with whom respondents have close family relationships;
- legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers;
- religious practices, affiliations or beliefs of the student or student's parent or guardian; or
- income,(other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program);

without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of an unemancipated minor, without the prior written consent of the parent.

Prior to an employee or contractor of the district providing information on a student enrolled in the district on any survey related to the social or emotional abilities, competencies or characteristics of the student; the district will provide the parent/guardian of the student detailed information related to the survey and obtain written consent of the parent/guardian of the student. This includes the person who created the survey, the person who sponsors the survey, how the information generated by the survey is used and how information generated by the survey is stored. This requirement will not prohibit a district employee from answering questions related to a student enrolled in the district as part of developing or implementing an individualized education program for the student.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

It is the responsibility of the board to review and approve the evaluation and testing program.

GRADUATION REQUIREMENTS

Students must successfully complete the courses required by the board and Iowa Department of Education in order to graduate.

It is the responsibility of the superintendent to ensure that students complete grades one through twelve and that high school students complete 48 credits prior to graduation. The following credits will be required for graduation:

English/Language Arts	8 credits
Science	6 credits
Mathematics	6 credits
Social Studies	6 credits
Physical Education	4 credits
United States Government	1 credits
American History	2 credits

The required courses of study will be reviewed by the board annually.

Prior to graduation, the district will advise students on how to successfully complete the free application for federal student aid.

Graduation requirements for special education students include successful completion of four years of English, three years of math, three years of social studies and three years of science.

Students who complete a regular session in the Legislative Page Program of the general assembly at the state capitol will be credited ½ credit of social studies.

Students enrolled in a junior officers' training corp will receive 1/8th physical education credit for each semester the student is enrolled in the program.

EARLY GRADUATION

In order to complete the Decorah Community School District educational program, a student must accomplish the minimum requirements as determined by our school district. Our school district has made provisions to earn a diploma based on the completion of requirements rather than by spending a specific number of successive years in accomplishing the requirements.

A request to graduate early from both the student and the parent/guardian must be made in writing to the high school principal prior to approval.

Any student who graduates early will no longer be considered a student of Decorah Community School District and will become an alumnus of the school district. However, the student who graduates early may participate in commencement exercises.

COMMENCEMENT

Students who are in good standing and who meet the graduation requirements set by the Board of Education are allowed to participate in commencement provided they abide by the proceedings organized by the school district. It is the responsibility of the principal to solicit input from each graduating class regarding the proceedings for their commencement.

It is possible that students who are serving discipline at the time of commencement or other senior activities will not be allowed to participate in commencement. Students are not required to participate in the commencement. Failure of a student to participate in commencement will not be a reason for withholding the student's final progress report or diploma certifying the student's completion of high school.

PARENT AND FAMILY ENGAGEMENT

Parent and family engagement is an important component in a student's success in school. The board encourages parents and families to become involved in their child's education to ensure the child's academic success. In order to facilitate parent and family involvement, it is the goal of the district to conduct outreach and implement programs, activities and procedures to further involve parents and families with the academic success of their students. The board will:

(1) Involve parents and families in the development of the Title I plan, the process for school review of the plan and the process for improvement by:

Parents and families will be provided information and given opportunities for feedback as it relates to the Title 1 program through information and resources shared in the Title 1 Parent Handbook, parent survey completed each spring, student progress reports completed each trimester, and participation in parent-teacher conferences.

(2) Provide the coordination, technical assistance and other support necessary to assist and build the capacity of all participating schools in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance by:

Student selection for the Title 1 program will be based on multiple factors. These factors are based on formative reading assessment scores through FAST testing as well as ISASP testing. Selection will also incorporate students F/P reading level and data trends over time. Students will not be accepted into the Title 1 program if they are receiving an individualized education plan in the area of reading. If a student has an IEP in the area of reading, their services would fall under special education.

(3) To the extent feasible, coordinate and integrate parent and family engagement strategies under Title I with parent and family engagement strategies outlined in other relevant Federal, State, and local laws and programs by:

The school provides parents with information that outlines what the parent, student, teacher, and principal will do to increase the student's achievement. This compact is provided to the parents of all Title 1 students and outlines the ways in which all stakeholders will work together to achieve proficiency.

(4) Conduct with the involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the school served including identifying: barriers to greater participation by parents in Title I activities (with particular attention to low-income parents, Limited English Proficient (LEP) parents, parents of any racial or ethnic minority, parents with disabilities and parents with limited literacy); needs of parents and family to assist their children's learning; and strategies to support successful school and family interactions by:

Parents of selected Title 1 students will be sent a parent letter via mail outlining their child's participation in the Title 1 program and a returned, signed parent permission slip is required. The Title 1 teacher will attend the fall and spring parent teacher conference to update parents on the progress of the student. Trimester updates will also be completed by the teacher and a paper copy sent home with report cards. If there is a need, the teacher and/or parents have the right to request a conference. Input from parents on the planning, review, and improvement of the Title 1 program will be gathered through the spring Title 1 parent survey.

(5) Use the findings of the annual evaluation to design strategies for more effective parent and family involvement and to revise, as necessary, the parent and family involvement policies by:

The results from the spring parent survey will be analyzed and incorporated when possible and applicable.

(6) Involve parents and families in Title I activities by:

Through the spring parent survey, parents will be able to comment on the effectiveness of the Title 1 program. Additional parent resources are provided in the Title 1 parent handbook and there are opportunities for collaboration during parent teacher conferences. The handbook provides parents multiple suggestions and ideas on how to engage with their students in reading.

The district shall involve parents in determining how to allocate reserved Title I funds in accordance with applicable laws.

The board will review this policy annually. The superintendent is responsible for notifying parents and families of this policy annually or within a reasonable time after it has been amended during the school year. The superintendent may develop an administrative process or procedures to implement this policy.

PARENT AND FAMILY ENGAGEMENT BUILDING-LEVEL REGULATION

To further the interests of student achievement, the superintendent will create necessary rules to engage parents and family members within the district in the following ways on a building-level basis:

1. Policy Involvement: The district will host an annual meeting and invite all parents to attend; and inform parents of their rights and the district's requirements under Title I. This meeting will also invite parents to become involved in the planning, review and improvement of a building policy and in developing the district plan. The district will inform parents of:
 - programs under this policy,
 - curriculum and assessment used for students,
 - the opportunity to meet with administration to participate in decisions related to their children's education,
 - a description and explanation of curriculum used in the school forms of academic assessment used to measure student progress, and
 - achievement levels of the challenging State academic standards.
2. Accessibility: Provide opportunities for informed participation of parents and family members in understandable formats and languages. This includes participation by parents and family members who may have disabilities, limited English proficiency, and migratory children. Offer a flexible number of meetings during the day, evening and weekends to facilitate parent involvement. The superintendent has discretion to allow schools to provide childcare for families of students during these meetings through Title I funds.
3. High Student Academic Achievement: Each school in the district will jointly develop with parents and family members a school-parent compact that outlines how parents, staff and students share responsibility for improving student academic achievement; and how a partnership will be built to achieve this. The compact will describe the responsibility of the school to provide high quality curriculum and instruction, and the parents' responsibility to support their children's learning. This will also address the importance of communication between schools and parents through parent teacher conferences, regular reports to parents on their children's progress, and ensuring regular meaningful communication between family and school staff.
4. Building Capacity for Involvement: Each school within the district will include in their plan ways to achieve the following:
 - Assist parents and families to understand topics including academic standards and assessments and how to monitor student progress;
 - Provide materials and training to help parents work with students to improve achievement;
 - Educate teachers and staff in how to communicate with parents and build ties to foster academic success;
 - Coordinate and integrate other federal, state and local programs to support parents in more fully participating in students' education;
 - Ensure information related to programs is sent to parents and families in understandable formats; and
 - Provide other reasonable support to encourage parental involvement

5. Schools Operating a Schoolwide Program: Each school operating a schoolwide program under this policy shall:
 - Involve parents on a timely and ongoing basis in the planning, review and improvement of programs, including the parent and family engagement school policy drafting and review, and the joint development of the schoolwide program.
 - If the schoolwide program plan is not satisfactory to the parents of the participating children, parent comments will be requested and submitted with the plan to the district.

EDUCATION RECORDS ACCESS

The board recognizes the importance of maintaining education records and preserving their confidentiality as provided by law. Education records are kept confidential at collection, storage, disclosure and destruction stages. The board secretary is the custodian of education records. Education records may be maintained in the central administration office or administrative office of the student's attendance center.

Definitions

For the purposes of this policy, the defined words have the following meaning:

- “Education Record” means those records that contain information directly related to a student and which are maintained by an education agency or institution or by a party acting for the agency or institution.
- “Eligible Student” means a student who has reached eighteen years or attends a postsecondary institution. Parents of an eligible student are provided access to education records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents may be provided access without the written permission of the student.

An education record may contain information on more than one student. Parents will have the right to access the information relating to their student or to be informed of the information. Eligible students will also have the right to access the information relating to themselves, or be informed of the information.

Parents, eligible students, and other individuals authorized in accordance with law will have a right to access the student's education records upon request without unnecessary delay and in no instance more than forty-five calendar days after the request is made. Parents, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents may not access the student records. Parents, an eligible student or an authorized representative of the parents will have the right to access the student's education records prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of education records will be provided if failure to do so would effectively prevent the parents or student from exercising the right to access the education records. Fees for copies of the records are waived if it would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve information from education records.

Upon the request of parents or an eligible student, the school district will provide an explanation and interpretation of the education records and a list of the types and locations of education records collected, maintained or used by the school district.

If the parents or an eligible student believes the information in the education records is inaccurate, misleading or violates the privacy of the student, the parents or an eligible student may request that the school district amend the education records.

EDUCATION RECORDS ACCESS

Education records may be disclosed in limited circumstances without parental or eligible student's written permission. This disclosure is made on the condition that the education record will not be disclosed to a third party without the written permission of the parents or the eligible student. This disclosure may be:

- To school officials within the school district and AEA personnel whom the superintendent has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees;
- To officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the education records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts;
- To the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities;
- In connection with a student's application for, or receipt of, financial aid;
- To organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it was conducted;
- To accrediting organizations;
- To parents of a dependent student as defined in the Internal Revenue Code;
- To comply with a court order or judicially issued subpoena;
- Consistent with an interagency agreement between the school district and juvenile justice agencies
- In connection with a health or safety emergency;
- As directory information; or
- In additional instances as provided by law.

The superintendent will keep a list of the individuals and their positions who are authorized to view a special education student's education records without the permission of the parents or the eligible student. Individuals not listed are not allowed access without parental or an eligible student's written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent will also keep a list of individuals, agencies and organizations which have requested or obtained access to a student's education records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. The superintendent, however, does not need to keep a list of the parents, authorized educational employees, officers and agencies of the school district who have accessed the student's education records. This list for an education record may be accessed by the parents, the eligible student and the custodian of education records.

Permanent education records, including a student's name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation. Permanent education records will be kept in a fire-safe vault or they may be maintained electronically with a secure backup file.

When personally identifiable information, other than permanent education records, is no longer needed to provide educational services to a special education student, the parents or eligible student are notified. This

notice is normally given after a student graduates or otherwise leaves the school district. If the parents or eligible students request that the personally identifiable information be destroyed, the school district will destroy the records, except for permanent records. Prior to the destruction of the records, the school district must inform the parents or eligible student the records may be needed by the parents or eligible student for social security benefits or other purposes. For purposes of policy, “no longer needed to provide educational services” means that a record is no longer relevant to the provision of instruction, support, or related services and it is no longer needed for accountability and audit purposes. At a minimum, a record needed for accountability and audit purposes must be retained for five years after completion of the activity for which funds were used.

EDUCATION RECORDS ACCESS

The school district will provide training or instruction to employees about parents' and eligible students' rights under this policy. Employees will also be informed about the procedures for carrying out this policy. It is the responsibility of the superintendent to annually notify parents and eligible students that they have the right to:

- (1) Inspect and review the student's education records;
- (2) Seek amendment of the student's education records that the parent or eligible student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights;
- (3) Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the law authorizes disclosure without consent; and
- (4) File a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the law.

The notice is given in a parents' or eligible student's native language. Should the school district collect personal information from students for the purposes of marketing or selling that information, the school district will annually notify parents of such activity.

The notice will include a statement that the parents have a right to file a complaint alleging the school district failed to comply with this policy. Complaints are forwarded to Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, Washington, DC. 20202-8520.

LETTER TO PARENT REGARDING RECEIPT OF A SUBPOENA

Date

Dear (Parent) :

This letter is to notify you that the Decorah Community School District has received a (subpoena or court order) requesting copies of your child's education records. The specific records requested are _____.

The school district has until (date on subpoena or court order) to deliver the documents to (requesting party on subpoena or court order) . If you have any questions, please do not hesitate to contact me at (phone #) .

Sincerely,

(Principal or Superintendent)

JUVENILE JUSTICE AGENCY INFORMATION SHARING AGREEMENT

Statement of Purpose: The purpose of this Agreement is to allow for the sharing of information among the School District and the Agencies prior to a student's adjudication in order to promote and collaborate to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

Identification of Agencies: This agreement is between the Decorah Community School District (hereinafter "School District") and (agencies listed) (hereinafter "Agencies").

Statutory Authority: This agreement implements Iowa Code § 280.25 and is consistent with 34 C.F.R. 99.38 (2012).

Parameters of Information Exchange:

1. The School District may share any information with the Agencies contained in a student's permanent record which is directly related to the juvenile justice system's ability to effectively serve the student.
2. Prior to adjudication information contained in the permanent record may be disclosed by the school district to the Agencies without parental consent or court order.
3. Information contained in a student's permanent record may be disclosed by the School District to the Agencies after adjudication only with parental consent or a court order.
4. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family.
5. Information shared under the agreement is not admissible in any court proceedings which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.
6. Information obtained by the school from other juvenile justice agencies may not be used as the basis for disciplinary action of the student.
7. This agreement only governs a school district's ability to share information and the purposes for which that information can be used. Other agencies are bound by their own respective confidentiality policies.

Records' Transmission: The individual requesting the information should contact the principal of the building in which the student is currently enrolled or was enrolled. The principal will forward the records within a reasonable time following receipt of the request.

Confidentiality: Confidential information shared between the Agencies and the school district will remain confidential and will not be shared with any other person, unless otherwise provided by law. Information shared under the agreement is not admissible in any court proceedings which take place prior to a disposition hearing, unless written consent is obtained from a student's parent. Agencies or individuals violating the terms of this agreement subject their entity represented and themselves personally to legal action pursuant to federal and state law.

JUVENILE JUSTICE AGENCY INFORMATION SHARING AGREEMENT

Amendments: This agreement constitutes the entire agreement among the agencies with respect to information sharing. Agencies may be added to this agreement at the discretion of the school district.

Term: This agreement is effective from (September 1, 20__ or other date).

Termination: The School District may discontinue information sharing with an Agency if the School District determines that the Agency has violated the intent or letter of this Agreement.

ANNUAL NOTICE

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the district receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal (or appropriate school official) will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading or in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the school district to amend a record should write to the school principal, clearly identify the part of the record they want changed, and specify why it should be changed.

If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist, a or a parent or student serving on an official committee, such as a disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

[Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll or is already enrolled if the disclosure is for purposes of the student's enrollment of transfer. (Note: FERPA requires a school district to make a reasonable attempt to notify the parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.)]

ANNUAL NOTICE

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office, U.S. Department of Education,
400 Maryland Ave., SW, Washington, DC, 20202-4605.

USE OF EDUCATION RECORDS REGULATION

Student records containing personally identifiable information, except for directory information, are confidential. Only persons, including employees, who have a legitimate educational interest are allowed to access a student's records without the parent's permission. Parents may access, request amendments to and copy their child's records during regular office hours.

Parents and eligible students will have a right to access a student's education records upon request without unnecessary delay and in no instance more than forty-five calendar days after the request is made. The intent of this regulation is to establish procedures for granting requests from eligible students and parents to access a student's education records.

Education records mean those records that contain information directly related to a student and which are maintained by an education agency or institution or by a party acting for the agency or institution. These may include, but are not necessarily limited to: dates of attendance; academic work completed; level of achievement (grades, standardized test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns.

A. Access to Records

1. Parents, eligible students, and other individuals authorized in accordance with law will have access to the student's education records during the regular business hours of the school district. Parents and eligible students will have a right to access the student's education records upon request without unnecessary delay and in no instance more than forty-five calendar days after the request is made. An eligible student or parent, upon written request to the board secretary, shall receive an explanation and interpretation of the education records. A student, eighteen years or older, has the right to determine who, outside the school system, has access to the records. Parents of students who are 18 years or older but still dependents for income tax purposes may access the student's records without prior permission of the student.
2. School officials having access to student records are defined as having a legitimate educational interest. A school official is a person employed by the school district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school district has contracted to perform a special task (such as an attorney, auditor, AEA employee, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks.

B. Release of Information Outside the School – Information from education records may be disclosed to outside parties as outlined in board policy and otherwise provided by law.

C. Procedures for Requesting a Record Amendment

1. If the eligible student, parent, or legal guardian believes the information in the education records is inaccurate, misleading, or violates the privacy of the student, the parents or an eligible student may request that the school district amend the education student records.
2. The school district will decide whether to amend the education student records within a reasonable time after receipt of the request.
3. If the school district determines an amendment is made to the education student record, the school district will make the amendment and inform the parents or the eligible student of the decision in writing.

4. If the school district determines that amendment of the student's education record is not appropriate, it will inform the parents or the eligible student of their right to a hearing before the hearing officer provided by the school district. The hearing officer may be an employee of the school district, so long as the employee does not have a direct interest in the outcome of the hearing.
5. Upon parental request, the school district will hold a hearing regarding the content of a student's education records which the parent believes to be inaccurate, misleading, or in violation of the privacy rights of students.
6. The hearing will be held within a reasonable time after receipt of the parent or eligible student's request. The parent or eligible student will receive reasonable advance notice of date, time and place of the hearing.
7. The parents or eligible student will be given a full and fair opportunity to present evidence relevant to the issues. The parent or eligible student may be represented by an individual at their choice at their own expense.
8. The hearing officer will render a written decision within a reasonable period after the hearing. The decision will be based upon evidence presented at the hearing and must include a summary of the evidence and the reasons for the decision.
9. The parents may appeal the hearing officer's decision to the superintendent within *five working days* if the superintendent does not have a direct interest in the outcome of the hearing.
10. The parents may appeal the superintendent's decision or the hearing officer's decision if the superintendent was unable to hear the appeal, to the board within *ten* days. It is within the discretion of the board to hear the appeal.
11. If the parents' and the eligible student's request to amend the education student record is further denied following the hearing, the parents or the eligible student are informed that they have a right to place an explanatory letter in the education student record commenting on the school district's decision or setting forth the reasoning for disagreeing with the school district. Additions to the student's education records will become a part of the education student record and be maintained like other education student records. If the school district discloses the education student records, the explanation by the parents will also be disclosed or the eligible student of the decision in writing.

STUDENT DIRECTORY INFORMATION

Directory information is information contained in the education records of a student that would not generally be considered harmful or an invasion of privacy if disclosed. The district may disclose "directory information" to third parties without consent if it has given public notice of the types of information which it has designated as "directory information," the parent's or eligible student's right to restrict the disclosure of such information, and the period of time within which a parent or eligible student has to notify the school in writing that he or she does not want any or all of those types of information designated as "directory information." The district has designated the following as "directory information":

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency or institution attended
- Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's SSN, in whole or in part, cannot be used for this purpose.)

Student is defined as an enrolled individual, PK-12 including children in school district sponsored child-care programs.

Prior to developing a student directory or to giving general information to the public, parents (including parents of students open enrolled out of the school district and parents of children homeschooled in the school district) will be given notice annually of the intent to develop a directory or to give out general information and have the opportunity to deny the inclusion of their child's information in the directory or in the general information about the students.

It is the responsibility of the superintendent to provide notice and to determine the method of notice that will inform parents.

AUTHORIZATION FOR RELEASING STUDENT DIRECTORY INFORMATION

The Decorah Community School District has adopted a policy designed to assure parents and students the full implementation, protection and enjoyment of their rights under the Family Educational Rights and Privacy Act of 1974 (FERPA). A copy of the school district's policy is available for review at the Central Administration Office at 510 Winnebago Street, Decorah, Iowa 52302.

This law requires the school district to designate as "directory information" any personally identifiable information taken from a student's educational records prior to making such information available to the public.

The school district has designated the following information as directory information:

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency or institution attended
- Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's SSN, in whole or in part, cannot be used for this purpose.)

You have the right to refuse the designation of any or all of the categories of personally identifiable information as directory information with respect to your student provided that you notify the school district in writing not later than September 1 of this school year. If you desire to make such a refusal, please complete and return the slip attached to this notice.

If you have no objection to the use of student information, you do not need to take any action.

AUTHORIZATION FOR RELEASING STUDENT DIRECTORY INFORMATION

RETURN THIS FORM

_____ Community School District Parental Directions to
Withhold Student/Directory Information for Education Purposes, for 20__ - 20__ school year.

Student Name: _____

Date of Birth _____

School: _____

Grade: _____

(Signature of Parent/Legal Guardian/Custodian of Child)

(Date)

This form must be returned to your child's school no later than September 1, 20____.
Additional forms are available at your child's school.

USE OF DIRECTORY INFORMATION

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Decorah Community School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, we may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Decorah Community School District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and,
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.¹

If you do not want the *Decorah Community School District* to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by *September 1*. *Decorah* has designated the following information as directory information:

- Student's name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Major field of study
- Dates of attendance
- Grade level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received
- The most recent educational agency or institution attended
- Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's SSN, in whole or in part, cannot be used for this purpose.)

¹ These laws are: Section 9528 of the Elementary and Secondary Education Act (20 U.S.C. § 7908) and 10 U.S.C. § 503(c).

STUDENT PHOTOGRAPHS

The board will permit student "portrait" photographs to be taken on school premises by a commercial photographer as a service to the students and their families.

Parents will be notified prior to the taking of pictures by a commercial photographer for student "portraits." In no case will students be required to have their picture taken or be pressured to purchase pictures.

Students or commercial photographers may take pictures of students upon consent for such things as the yearbook or student newspaper.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative rules regarding student photographs.

STUDENT LIBRARY CIRCULATION RECORDS

Student library circulation records are designed to be used internally to assist in the orderly administration of the school district libraries. As a general rule, student library circulation records are considered confidential records and will not be released without parental consent. Individuals who may access such records include a student's parents, the student, authorized licensed employees, authorized government officials from the U.S. Comptroller General, the Secretary of Education, the Commissioner and Director of the National Institute of Education, and the Assistant Secretary for Education and State Education Department. Appropriate authorities in a health or safety emergency may access the student's library circulation records without the approval or the notification of the student's parents. Parents may not access records, without the student's permission, of a student who has reached the age of majority or who is attending a post-secondary educational institution unless the student is considered a dependent for tax purposes.

It is the teacher-librarian's responsibility, as the person maintaining the student library circulation records, to approve requests for access to student library circulation records. Students' library circulation records may be accessed during the regular business hours of the school district. If copies of documents are requested, a fee for such copying may be charged.

It is the responsibility of the superintendent, in conjunction with the teacher or teacher-librarian, to develop administrative regulations regarding this policy.

STUDENT HEALTH AND IMMUNIZATION CERTIFICATES

Students desiring to participate in athletic activities or enrolling in preschool in the school district will have a physical examination by a licensed physician and provide proof of such an examination to the school district. *A physical examination and proof of such an examination may be required by the administration for students in other grades enrolling for the first time in the school district.*

A certificate of health stating the results of a physical examination and signed by the physician is on file at the attendance center. Each student will submit an up-to-date certificate of health upon the request of the superintendent. Failure to provide this information may be grounds for disciplinary action.

Students enrolling for the first time in the school district will also submit a certificate of immunization against diphtheria, pertussis, tetanus, poliomyelitis, rubeola, rubella, and other immunizations required by law. The student may be admitted conditionally to the attendance center if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission. Upon recommendation of the Iowa Department of Education and Iowa Department of Public Health, students entering the district for the first time may be required to pass a TB test prior to admission. The district may conduct TB tests of current students.

Exemptions from the immunization requirement in this policy will be allowed only for medical or religious reasons recognized under the law. The student must provide a valid Iowa State Department of Health Certificate of Immunization Exemption to be exempt from this policy.

ADMINISTRATION OF MEDICATION TO STUDENTS

The board is committed to the inclusion of all students in the education program and recognizes that some students may need prescription and nonprescription medication to participate in their educational program.

Medication shall be administered when the student's parent or guardian (hereafter "parent") provides a signed and dated written statement requesting medication administration and the medication is in the original, labeled container, either as dispensed or in the manufacturer's container. Administration of medication may also occur consistent with board policy 804.05 – Stock Prescription Medication Supply.

When administration of the medication requires ongoing professional health judgment, an individual health plan shall be developed licensed health personnel working under the auspice of the school with collaboration from the parent or guardian, individual's health care provider or education team pursuant to 281.14.2(256). Students who have demonstrated competence in administering their own medications may self-administer their medication. A written statement by the student's parent shall be on file requesting co-administration of medication, when competence has been demonstrated. By law, students with asthma, airway constricting diseases, respiratory distress or students at risk of anaphylaxis who use epinephrine auto-injectors may self-administer their medication upon the written approval of the student's parents and prescribing licensed health care professional regardless of competency.

Persons administering medication shall include authorized practitioners, such as licensed registered nurses and physician, and persons to whom authorized practitioners have delegated the administration of medication (who have successfully completed a medication administration course conducted by a registered nurse or pharmacist that is provided by the department of education). The medication administration course is completed every five years with an annual procedural skills check completed with a registered nurse or a pharmacist. A record of course completion shall be maintained by the school.

A written medication administration record shall be on file including:

- date;
- student's name;
- prescriber or person authorizing administration;
- medication;
- medication dosage;
- administration time;
- administration method;
- signature and title of the person administering medication; and
- any unusual circumstances, actions, or omissions.

Medication shall be stored in a secured area unless an alternate provision is documented. The development of emergency protocols for medication-related reactions is required Medication information shall be confidential information as provided by law

Disposal of unused, discontinued/recalled, or expired abandoned medication shall be in compliance with federal and state law. Prior to disposal school personnel shall make a reasonable attempt to return medication by providing written notification that expired, discontinued, or unused medications needs to be picked up. If medication is not picked up by the date specified, disposal shall be in accordance with the disposal procedures for the specific category of medication.

COMMUNICABLE DISEASES - STUDENTS

Students with a communicable disease will be allowed to attend school provided their presence does not create a substantial risk of illness or transmission to other students or employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunosuppressed students is determined by their personal physician. The health risk to others in the school district environment from the presence of a student with a communicable disease is determined on a case-by-case basis by the student's personal physician, a physician chosen by the school district or public health officials.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with students with a communicable disease.

For more information on communicable disease charts, and reporting forms, go to the Iowa Department of Public Health Web site: <http://www.idph.state.ia.us/CADE/Default.aspx>.

STUDENT ILLNESS OR INJURY AT SCHOOL

When a student becomes ill or is injured at school, the school district will attempt to notify the student's parents as soon as possible.

The school district, while not responsible for medical treatment of an ill or injured student, will have employees present administer emergency or minor first aid if possible. An ill or injured child will be turned over to the care of the parents or qualified medical employees as quickly as possible.

It is the responsibility of the principal to file an accident report with the superintendent within twenty-four hours after the student is injured.

Annually, parents are required to complete a medical emergency authorization form indicating the procedures to be followed, if possible, in an emergency involving their child. The authorization form will also include the phone numbers of the parents and alternative numbers to call in case of an injury or illness.

The superintendent is responsible, in conjunction with the school nurse, to develop rules and regulations governing the procedure in the event a student should become ill or be injured at school.

EMERGENCY PLANS AND DRILLS

Students will be informed of the appropriate action to take in an emergency. Emergency drills for fire, weather, and other disasters are conducted each school year. Fire and tornado drills are each conducted regularly during the academic school year with a minimum of two before December 31 and two after January 1.

Each attendance center will develop and maintain a written plan containing emergency and disaster procedures. The plan will be communicated to and reviewed with employees. Employees will participate in emergency drills. Licensed employees are responsible for instructing the proper techniques to be followed in the drill.

STUDENT INSURANCE

Students will have the opportunity to participate in the health and accident insurance plan selected by the school district. The cost of the health and accident insurance program is borne by the student. Participation in the insurance health and accident plan is not a contract with the school district, but rather, a contract between the insurance company and the student.

CUSTODY AND PARENTAL RIGHTS

Disagreements between family members are not the responsibility of the school district. The school district will not take the "side" of one family member over another in a disagreement about custody or parental rights. Court orders that have been issued are followed by the school district. It is the responsibility of the person requesting an action by the school district to inform and provide the school district the court order allowing such action.

This policy does not prohibit an employee from listening to a student's problems and concerns.

It is the responsibility of the superintendent to ensure employees remain neutral in a disagreement about custody and parental rights.

STUDENT SPECIAL HEALTH SERVICES

The board recognizes that some special education students need special health services during the school day. These students will receive special health services in conjunction with their individualized health plan.

The superintendent, in conjunction with licensed health personnel, will establish administrative regulations for the implementation of this policy.

SPECIAL HEALTH SERVICES REGULATION

Some students who require special education need special health services in order to participate in the educational program. These students will receive special health services in accordance with their individualized educational program.

A. Definitions

"Assignment and delegation" - occurs when licensed health personnel, in collaboration with the education team, determine the special health services to be provided and the qualifications of individuals performing the health services. Primary consideration is given to the recommendation of the licensed health personnel. Each designation considers the student's special health service. The rationale for the designation is documented. If the designation decision of the team differs from the licensed health professional, team members may file a dissenting opinion.

"Co-administration" - the eligible student's participation in the planning, management and implementation of the student's special health service and demonstration of proficiency to licensed health personnel.

"Educational program" - includes all school curricular programs and activities both on and off school grounds.

"Education team" - may include the eligible student, the student's parent, administrator, teacher, licensed health personnel, and others involved in the student's educational program.

"Health assessment" - health data collection, observation, analysis, and interpretation relating to the eligible student's educational program.

"Health instruction" - education by licensed health personnel to prepare qualified designated personnel to deliver and perform special health services contained in the eligible student's health plan. Documentation of education and periodic updates are on file at school.

"Individual health plan" - the confidential, written, preplanned and ongoing special health service in the educational program. It includes assessment, planning, implementation, documentation, evaluation and a plan for emergencies. The plan is updated as needed and at least annually. Licensed health personnel develop this written plan with the education team.

"Licensed health personnel" - includes licensed registered nurse, licensed physician, and other licensed health personnel legally authorized to provide special health services and medications.

"Prescriber" - licensed health personnel legally authorized to prescribe special health services and medications.

"Qualified designated personnel" - persons instructed, supervised and competent in implementing the eligible student's health plan.

"Special health services" - includes, but is not limited to, services for eligible students whose health status (stable or unstable) requires:

- Interpretation or intervention,
- Administration of health procedures and health care, or
- Use of a health device to compensate for the reduction or loss of a body function.

"Supervision" - the assessment, delegation, evaluation and documentation of special health services by licensed health personnel. Levels of supervision include situations in which licensed health personnel are:

- physically present.
- available at the same site.
- available on call.

SPECIAL HEALTH SERVICES REGULATION

- B. Licensed health personnel will provide special health services under the auspices of the school. Duties of the licensed personnel include the duty to:
- Participate as a member of the education team.
 - Provide the health assessment.
 - Plan, implement and evaluate the written individual health plan.
 - Plan, implement and evaluate special emergency health services.
 - Serve as liaison and encourage participation and communication with health service agencies and individuals providing health care.
 - Provide health consultation, counseling and instruction with the eligible student, the student's parent and the staff in cooperation and conjunction with the prescriber.
 - Maintain a record of special health services. The documentation includes the eligible student's name, special health service, prescriber or person authorizing, date and time, signature and title of the person providing the special health service and any unusual circumstances in the provision of such services.
 - Report unusual circumstances to the parent, school administration, and prescriber.
 - Assign and delegate to, instruct, provide technical assistance and supervise qualified designated personnel.
 - Update knowledge and skills to meet special health service needs.
- C. Prior to the provision of special health services the following will be on file:
- Written statement by the prescriber detailing the specific method and schedule of the special health service, when indicated.
 - Written statement by the student's parent requesting the provision of the special health service.
 - Written report of the preplanning staffing or meeting of the education team.
 - Written individual health plan available in the health record and integrated into the IEP or IFSP.
- D. Licensed health personnel, in collaboration with the education team, will determine the special health services to be provided and the qualifications of individuals performing the special health services. The documented rationale will include the following:
- Analysis and interpretation of the special health service needs, health status stability, complexity of the service, predictability of the service outcome and risk of improperly performed service.
 - Determination that the special health service, task, procedure or function is part of the person's job description.
 - Determination of the assignment and delegation based on the student's needs.
 - Review of the designated person's competency.
 - Determination of initial and ongoing level of supervision required to ensure quality services.
- E. Licensed health personnel will supervise the special health services, define the level of supervision and document the supervision.
- F. Licensed health personnel will instruct qualified designated personnel to deliver and perform special health services contained in the eligible individual health plan. Documentation of instruction and periodic updates are on file at school.
- G. Parents will provide the usual equipment, supplies and necessary maintenance for such. The equipment is stored in a secure area. The personnel responsible for the equipment are designated in the individual health plan. The individual health plan will designate the role of the school, parents, and others in the provision, supply, storage and maintenance of necessary equipment.

STUDENT WELLNESS

The Decorah Community School District promotes healthy students by supporting wellness, good nutrition and regular physical activity as a part of the total learning environment. The school district supports a healthy environment where students learn and participate in positive dietary and lifestyle practices. By facilitating learning through the support and promotion of good nutrition and physical activity, we contribute to the basic health status of students. Improved health optimizes student performance potential.

The school district provides a comprehensive learning environment for developing and practicing lifelong wellness behaviors. The entire school environment, not just the classroom, shall be aligned with healthy school district goals to positively influence a student's understanding, beliefs and habits as they relate to good nutrition and regular physical activity.

The school district supports and promotes proper dietary habits contributing to students' health status and academic performance. All foods and beverages available on school grounds and at school-sponsored activities during the instructional day should meet or exceed the school district nutrition standards and be in compliance with Smart Snack nutrition standards, and applicable state and federal laws. Foods should be served with consideration toward nutritional integrity, variety, appeal, taste, safety, and packaging to ensure high-quality meals.

The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of students who are eligible for free and reduced-price meals or students who are unable to pay for their meals. Students will be served a reimbursable meal regardless of the school lunch balance. Applications for free/reduced price meals are emailed to all families at the beginning of the school year and again mid school year. The online application is also available on the district website's Nutrition Services page. The school district may utilize an electronic identification and payment systems; provide an alternate meal at no charge to any child who requests it; promote the availability of meals to all students; and/or use nontraditional methods for serving meals, such as "grab-and-go" or classroom breakfast.

Parents, students, representatives of the school food authority, the school board, school administrators, community members and the general public, physical education teachers, and school health professionals may participate in the development, implementation, and periodic review and update of this policy. The school district will maintain a local school wellness team composed of such individuals. The local wellness team will develop a plan to implement this wellness policy and periodically review and update the policy. The team will designate an individual to chair the team and help with the implementation and evaluation of the policy. The team will report annually to the board and community regarding the content and effectiveness of this policy and recommend updates if needed. When monitoring implementation, school buildings will be evaluated individually with reports prepared for each building and the school district as a whole for review by the school board. The wellness team will designate building advisors to make sure buildings are in compliance with this wellness policy.

Specific wellness goals will be evaluated on a yearly basis by the wellness team, with review and oversight provided by the school board. Specific goals for nutrition education, promotion, procurement, physical activity, and other school-based activities that are designed to promote student wellness are set forth in Appendices A, B, C, respectively. School food nutrition guidelines are set forth in Appendix D. The board will monitor and evaluate this policy as set forth in Appendix E.

A Triennial Assessment of policy implementation will be administered using the Wellness School Assessment Tool Implementation (WELLSAT-1).

The school district will be responsible to ensure that the public, including parents, students, and others in the community, are informed and updated about the content and implementation of this policy. The Triennial Assessment, along with yearly updates, will be posted on the school district's Wellness webpage.

The Northeast Iowa Schools Insurance Trust, which the school district has for their health insurance, provides yearly wellness blood draws and flu shots to all employees of the district at no cost.

WELLNESS REGULATION

Appendix A- Nutrition Education, Promotion and Procurement

The school district will provide nutrition education and engage in the procurement of foods that uphold the nutrition guidelines of food as presented in Appendix D and applicable state and federal laws, and to the greatest extent possible provide local, fresh and healthy foods. Nutrition education and procurement will support the values of local food being good for our health, our environment, our community and our economy.

Nutrition Education and Promotion:

- includes developmentally appropriate, culturally relevant participatory activities such as contests, promotions, taste testing, farm visits and school gardens and is part of not only health education classes, but is encouraged with cross curricular implementations.
- promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products, healthy food preparation methods and health-enhancing nutrition practices with a focus on locally produced foods.
- emphasizes caloric balance between food intake and physical activity.
- correlates with school meal programs, other foods and nutrition-related community services.

Food Procurement:

The district shall source unprocessed locally grown or raised agricultural foods, within 150 miles, to the greatest extent possible, including school grown products (from school gardens), and menus will be developed to compliment local growing seasons and availability of foods.

If the cost of unprocessed locally grown or raised agricultural food products is at or below 15% of comparably sourced foods, the district may use geographic preference for the procurement of local foods.

The district will reach out to neighboring school districts to purchase locally grown food cooperatively, whenever possible, in order to increase the amounts of products purchased from local farms and lower food costs.

The district will support and maintain school gardens that will serve as instructional tools for nutrition education, as well as encouraging curriculum integration into other content areas.

The school gardens will also provide local fruits and vegetables to be incorporated into the district's school lunch. Products from the garden that are utilized by the district's Food Service will be reimbursed to the school garden fund at a percentage of the market value in order to provide sustainability for the garden projects.

Appendix B- Physical Activity

Physical Education

The school district will provide physical education that:

- is for all students in grades K-12 for the entire school year, except as otherwise provided by law.
- is taught by a certified physical education teacher.
- includes PLC (Professional Learning Community) for physical education teachers.
- includes students with disabilities as they are physically able (students with special health-care needs may be provided physical education in alternative educational settings).
- engages students in moderate to vigorous activity, on average, 50 percent of physical education class time.
- aligns curriculum for grades K-12 with state physical education standards.

Daily Wellness Time (unstructured movement time)

Elementary schools should provide wellness time for students that:

- is at least 20 minutes a day.
- is preferably outdoors.
- encourages moderate to vigorous physical activity adequate for space and available equipment.
- in addition, the district discourages extended periods (i.e., periods of two or more hours) of inactivity throughout the school day. Teachers are encouraged to include physical activity within the classroom learning environment.

Integrating Physical Activity into Classroom Setting

For students to receive the nationally recommended amount of daily physical activity and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond the physical education class. Toward the end, the school district will:

- offer classroom health education that complements physical education by reinforcing the knowledge and self-management skills needed to maintain a physically active lifestyle and to reduce time spent on sedentary activities.
- discourage sedentary activities, such as watching television, playing computer games.
- provide opportunities for physical activity to be incorporated into other subject lessons.
- encourage classroom teachers to provide short physical activity breaks between lessons and classes, as appropriate.
- When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

Physical Activity and Punishment

Employees should not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., wellness time, physical education) as punishment during the school day.

Physical Activity Requirement

Except as otherwise provided by law, physically able students in grades Kindergarten through 5 shall engage in physical activity for a minimum of 30 minutes each school day, and physically able students in grades 6 through 12 shall engage in physical activity for a minimum of 120 minutes per week in which there are at least 5 days of school. This requirement may be met by physical education classes, activities at recess or during class time, and before or after school activities.

Appendix C- Other School-Based Activities that Promote Student Wellness

Physical Activity as a Reward

Through the PBIS program students earn Viking Pride stickers and are able to choose a “reward.” The most popular rewards are dance parties, extra recess or running on the high school track.

Safe Routes to School (walking school bus)

We collaborate with Safe Routes to School in order for students to have an option to walk to school under adult supervision.

In addition we participate in Live Health Iowa’s Walk to School day in the fall and again in the spring weather permitting. This is a TK-4th grade student participation.

Communication with Parents

The school district will support parents’ efforts to provide a healthy diet and daily physical activity for their children. The school district will:

- encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the established nutrition standards for individual foods and beverages.
- provide parents a list of foods that meet the school district’s snack standards and ideas for healthy celebrations/parties, rewards and fundraising activities.
- provide opportunities for parents to share their healthy food practices with others in the school community.
- provide information about physical education and other school based physical activity opportunities before, during and after the school day.
- support parents’ efforts to provide their children with opportunities to be physically active outside of school.
- include sharing information about physical activity and physical education through a web site, newsletter, other take home materials, special events or physical education homework.

Food Marketing in Schools

School based marketing will be consistent with nutrition education, Smart Snacks, and health promotion. The school district will:

- limit its food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually.
- limit other school -based marketing of brands promoting predominantly low nutrition foods and beverages.

- promote healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products.
- consider other marketing activities that promote healthful behaviors.

Appendix D-Nutrition Guidelines for All Foods Available on Campus

The nutrition guidelines for all foods available will focus on compliance with applicable federal and state laws, Smart Snacks, and school district nutrition standards, and promoting student health and reducing childhood obesity.

School Meals

Meals served through the National School Lunch and Breakfast Programs will:

- be appealing and attractive to children.
- be served in clean and pleasant settings.
- comply with National School Lunch and Breakfast standards for meal patterns, nutrition level, and calorie requirements for age/grade levels.
- offer a variety of fruits and vegetables, legumes and whole grains: highlight local food when available and appropriate.
- serve only low-fat (1%) and fat-free milk and nutritionally equivalent non dairy alternatives (as defined by the USDA); fat-free chocolate milk will be available as an option one time per day at each grade level (K-8).
 -
- provide free access to water fountains/ filling stations located by each cafeteria.

School will:

- engage elementary students and parents, through taste-tests of new entrees and surveys, in selecting foods offered through the meal programs in order to identify new, healthful and appealing food choices.
- share information about the nutritional content of meals with parents and students. (The information could be made available on menus, a website, on cafeteria menu boards, placards or other point-of-purchase materials).
- encourage staff to model healthy eating habits.

Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn, schools will:

- provide and comply with the National School Breakfast standards for meal patterns, nutrition labels, and calorie requirements for all age/grade levels.
- arrange bus schedules and utilize methods to serve breakfasts that encourage participation.

- notify parents and students of the availability of the School Breakfast Program, where available.
- encourage parents to provide a healthy breakfast for their children through newsletter articles, take-home materials or other means.

Meal Times and Scheduling

The school district:

- will strive to provide students with at least 10 minutes to eat after sitting down for breakfast and 20 minutes after sitting down for lunch.
- schedule meal periods at appropriate times, e.g., lunch should be scheduled between 10:45 a.m. and 1:00 p.m.; should not schedule tutoring, club or organizational meetings or activities during mealtimes, unless students may eat during such activities.
- will provide students access to hand washing or hand sanitizing before they eat meals or snacks.

Qualification of Food Service Staff

Qualified nutrition professionals will administer the meal programs. As part of the school district's responsibility to operate a food service program, the school district will:

- provide continuing professional development for all nutrition professionals.
- provide yearly training programs for child nutrition directors, nutrition managers, and cafeteria workers such as: CEU training, Civil Rights, Bloodborne Pathogens, Allergens, and Norovirus which all comply with the USDA professional standards.

Sharing Foods

The school district discourages students from sharing their food or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Appendix E-Foods Sold Outside the Meal (e.g. vending, ala carte, sales)

Foods Sold Outside the Meal (e.g. vending, ala carte, sales)

All foods and beverages sold individually outside the reimbursable meal programs (including those sold through ala carte (snack lines) and vending machines on school grounds during the school day or through programs for students after the school day will meet or exceed Smart Snack nutrition standards and be in compliance with applicable state and federal laws.

Parents are strongly encouraged to purchase a school lunch when eating with their child or pack a homemade meal.

Fundraising Activities

Regulated fundraising activities on school grounds during the school day are strongly suggested to comply with Smart Snack nutrition standards and be in compliance with applicable state and federal laws. The school district encourages fundraising activities that promote physical activity.

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of meals, children's nutritional needs, children's ages and other considerations. The school district will disseminate a list of healthful snack items to teachers, after-school program personnel and parents that meet Smart Snack nutrition standards.

If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Celebrations

The district prohibits any distribution of food or treats outside the school lunch program, except foods that are commercially wrapped. Foods made at home may not be distributed within the school. If your child wants to bring a birthday treat, encourage them to bring a healthy snack or even better; bring an item for the classroom such as a classroom book or other classroom supplies. Here is a list of foods that would fall under the individually packaged healthy foods.

List of Healthy Foods:

- Cheese sticks
- Gram crackers
- Popcorn
- Fresh fruit/veggie tray
- Pretzels
- Baked crackers
- Granola bar/Cereal bar
- Packaged Rice Krispie Treats

The reason for this school district policy is because of the growing number of students who live with food allergies. Parents can purchase birthday treats from the Food Service Department which align with Smart Snack Standards. Here is a link for foods and prices:

School Sponsored Events

Foods and beverages offered or sold on school grounds at school-sponsored events outside the school day are encouraged to meet the nutrition standards for meals or for foods and beverages sold individually following the applicable nutrition content standards.

Food And Water Safety

All foods made available on campus must adhere to food safety and security guidelines. All foods made available on campus must comply with the state and local food safety and sanitation regulations. Hazard Analysis and Critical Control Points (HACCP) plans and guidelines are implemented to prevent food illness in schools. Free, safe, and fresh drinking water is available throughout the school day to students.

Appendix F Plans for Measuring Implementation

Monitoring

In each school:

- The principal will ensure compliance with those policies in the school and will report on the school's compliance to the superintendent.
- Food service staff, at the school or school district level, will ensure compliance with nutrition policies within food service areas and will report on this matter to the superintendent or principal.

In the school district:

- The school district will report on the most recent USDA School Meals Initiative (SMI) review findings and any resulting changes. If the school district has not received a SMI review from the state agency within the past five years, the school district will request from the state agency that a SMI review be scheduled as soon as possible.
- The superintendent will develop a summary report every three years on school district-wide compliance with the school district's established nutrition and physical activity wellness policies, based on input from schools within the school district.
- The report will be provided to the school board and also distributed to all school wellness committees, parent/teacher organizations, principals and health services personnel in the school district.
- Specific wellness goals will be evaluated on a yearly basis by the wellness team. The team will report annually to the board and community regarding the content and effectiveness of the wellness policy and recommend updates if needed.

Policy Review

To help with the initial development of the school district's wellness policies, each school in the school district will conduct a baseline assessment of the school's existing nutrition and physical activity environments and practices. The results of those school-by-school assessments will be compiled at the school district level to identify and prioritize needs.

The school district will at least once a year measure and make available to the public an assessment on the implementation of the school's district's wellness policy, including the extent to which schools in the district are in compliance with the policy, the extent to which the policy compares to model local wellness policies, and the progress made in attaining the goals of the policy. Updates will be posted on the school district's Wellness webpage for public review.

A Triennial Assessment of policy implementation, using Wellness School Assessment Tool Implementation (WELLSAT-1), will be used to review policy compliance, assess progress and determine areas in need of improvement. As part of that review, the school district will review the nutrition and physical activity policies and practices and the provision of an environment that supports healthy eating and physical activity. The school district will revise the wellness policies and develop work plans to facilitate their implementation. The Triennial Assessment Report will be posted on the school districts Wellness webpage for public review.

CLASS OR STUDENT GROUP GIFTS

The board welcomes gifts to the school district from a class or student group. While class gifts to the school district do not require the approval of the superintendent, the board encourages students to consult with the superintendent or other licensed employees prior to selecting a gift for the school district.

OPEN NIGHT

In keeping with good community relations, student school activities will not be scheduled on Wednesday night beyond 6pm whenever possible. It is the responsibility of the principal to oversee the scheduling of school activities for compliance with this policy.

**GRIEVANCE PROCEDURES FOR SECTION 504 OF THE REHABILITATION ACT OF 1973
AND THE AMERICANS WITH DISABILITIES ACT**

Students with disabilities and their parents or guardians have the right to file a complaint alleging discrimination under Section 504 of the Rehabilitation Act of 1973.

Step One: The student or parent/guardian (“Complainant”) will first attempt to work out a resolution with the staff member(s) directly involved.

Step Two: If the matter cannot be informally resolved, the Complainant may file a written complaint with the Compliance Officer (Facilitator of Special Needs) identifying all involved persons, the nature of the problem, and the requested remedy. The Compliance Officer shall investigate the complaint and provide a written response to the Complainant within fifteen (15) school days or as soon as reasonably practicable after receipt of the complaint.

Step Three: If the matter has not been resolved at Step Two, the Complainant may, within fifteen (15) school days of receiving the Compliance Officer’s written response, make a written appeal to the Superintendent. The Superintendent shall determine whether additional investigation is necessary and provide a written response to the Complainant within fifteen (15) days or as soon as reasonably practicable after receiving notice of the appeal.

Step Four: If the matter has not been resolved, the Complainant has a right to an impartial hearing with a neutral third-party hearing officer. Complainant must request the impartial hearing within fifteen (15) days of receiving the Superintendent’s written response. Complainant and the school district have the right to participate in the hearing, present evidence, and be represented by counsel. The decision of the impartial hearing officer is final.

This procedure in no way denies the right of the Complainant to file a formal complaint with the Iowa Civil Rights Commission or the U.S. Department of Education Office of Civil Rights.
