ROLE OF AND GUIDING PRINCIPLES FOR EMPLOYEES

This series of the board policy manual is devoted to the board's goals and objectives for employees in the performance of their jobs. Employees provide a variety of important services for the children of the school district community. They may be teaching or assisting in the classroom, working in the office, maintaining the facilities, driving or repairing the school buses, or cooking lunches. Each employee plays a vital role in providing an equal opportunity for a quality education for students commensurate with the students' individual needs. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees shall promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the board's goal is to obtain and retain qualified and effective employees. The board shall have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district's standards of acceptable performance. It shall be the responsibility of the superintendent to make recommendations to the board in these areas prior to board action. The board recognizes its duty to bargain collectively with duly certified collective bargaining units. To the extent a group of employees has a recognized collective bargaining unit, the provisions of the master contract regarding such topics shall prevail.

Board policies in this series relating to general employees will apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees will apply to positions that require a teaching license or administrator's certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy or a more specific policy is in the 300 series, Administration. Classified employees' policies included in this series will apply to positions that do not fall within the definition of licensed employee.

EQUAL EMPLOYMENT OPPORTUNITY

The Decorah Community School District will provide equal opportunity to employees and applicants for employment in accordance with applicable equal employment opportunity and affirmative action laws, directives and regulations of federal, state and local governing bodies. Opportunity to all employees and applicants for employment includes hiring, placement, promotion, transfer or demotion, recruitment, advertising or solicitation for employment, treatment during employment, rates of pay or other forms of compensation, and layoff or termination. The district will utilize affirmative action standards which are based on the population of the district community, the student population served, or the individuals who can reasonably be recruited. Employees will support and comply with the district's established equal employment opportunity and affirmative action policies. Employees will be given notice of this policy annually.

The board will appoint an affirmative action coordinator. The affirmative action coordinator will have the responsibility for drafting the affirmative action plan. The affirmative action plan will be reviewed by the board at least every two years.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and Iowa Department of Education for the position for which they apply. In employing individuals, the board will consider the qualifications, credentials, and records of the applicants without regard to race, color, creed, sex, national origin, religion, age, sexual orientation, pregnancy or related condition or disability. In keeping with the law, the board will consider the veteran status of applicants.

Background checks and employment eligibility checks for candidates selected for hire will be performed in accordance with applicable laws. If the candidate is a teacher who has an initial license from the BOEE, then the requirement for a background check is waived, but the employment eligibility check will still be performed. The district will perform repeat background checks on applicable employees as required by law.

Advertisements and notices for vacancies within the district will contain the following statement: "The Decorah Community School District is an EEO/AA employer." The statement will also appear on application forms.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, will be directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Decorah Community School District, 1732 Old Stage Road, Decorah, Iowa 52101; or by telephoning (563) 382-4208.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Equal Employment Opportunity Commissions, Milwaukee Area Office, Reuss Federal Plaza, 310 West Wisconsin Ave., Suite 500, Milwaukee, WI., 53203-2292, (414) 662-3680 or TTY (800) 669-6820. <http://www.eeoc.gov/field/milwaukee/index.cfm> or the Iowa Civil Rights Commission, 6200 Park Avenue, Suite 100, Des Moines, IA 50321-1270, (515) 281-4121 or 1-800-457-4416, <https://icrc.iowa.gov/>. This inquiry or complaint to the federal office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain is considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may, upon five days notice, require the employee to cease such solicitations as a condition of continued employment.

Employees will not act as an agent or dealer for the sale of textbooks or other school supply companies doing business with the school district. Employees will not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees will not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It will also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist will include, but not be limited to, any of the following:

- (1) The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
- (2) The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.
- (3) The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

EMPLOYEE CONFLICT OF INTEREST

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment or activity. If the activity or employment falls under (3), then the employee must:

- Cease the outside employment or activity; or,
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

When procurement is supported by Federal Child Nutrition funds, employees will not participate in the selection, award, or administration of a contract if there is a real or apparent conflict of interest in the contract. Contract, for purposes of this paragraph, includes a contract where the employee, employee's immediate family, partner, or a non-school district employer of these individuals is a party to the contract.

It is the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

NEPOTISM

More than one family member may be an employee of the school district. It is within the discretion of the superintendent to allow one family member employed by the school district to supervise another family member employed by the school district subject to the approval of the board.

The employment of more than one individual in a family is on the basis of their qualifications, credentials and records.

EMPLOYEE COMPLAINTS

Complaints of employees against fellow employees should be discussed directly between employees as appropriate for the nature of the complaint. Complaints should be made in a constructive and professional manner. Complaints should generally not be made in the presence of other employees, students or outside persons.

If the complaint cannot be resolved, the employee may discuss the matter with their immediate supervisor. If the matter cannot be resolved within ten days of speaking with the immediate supervisor, the employee may discuss it with the principal within ten days of the supervisor's decision. If the matter cannot be resolved by the principal, the employee may discuss it with the superintendent within thirty days after speaking with the principal.

If the matter is not satisfactorily resolved by the superintendent, the employee may ask to have the matter placed on the board agenda of a regularly scheduled board meeting in compliance with board policy. The board retains discretion as to whether to consider or take action on any complaint.

This policy is designed to create an appropriate process for pursuing general employee complaints. However, employees wishing to address a complaint on a topic with a more specialized procedure such as master contract grievances, or bullying or harassment claims should follow the appropriate process set forth in the master contract, employee handbook or other board policies specific to that topic.

EMPLOYEE RECORDS

The school district will maintain personnel records on employees. The records are important for the daily administration of the educational program, for implementing board policy, for budget and financial planning, and for meeting state and federal requirements.

The records will include, but not be limited to, records necessary for the daily administration of the school district, salary records, evaluations, application for employment, references, and other items needed to carry out board policy. Employee personnel files are school district records and are considered confidential records and therefore are not generally open to public inspection or accessibility. Only in certain limited instances, when the employee has given a signed consent, will employee personnel records be accessible to individuals other than the employee or authorized school officials.

Employees may have access to their personnel files, with the exception of letters of reference, and copy items from their personnel files at a time mutually agreed upon between the superintendent and the employee. The school district may charge a reasonable fee for each copy made. Employees, however, will not be allowed access to the employment references written on behalf of the employee. Board members will generally only have access to an employee's file when it is necessary because of an employee related matter before the board.

It is the responsibility of the superintendent to keep employees' personnel files current. Employee records requests should be submitted to the board secretary or their designee as the custodian of district records.

It is the responsibility of the superintendent to develop administrative regulations for the implementation of this policy.

EMPLOYEE TRAVEL COMPENSATION

Employees traveling on behalf of the school district and performing approved school district business will be reimbursed for their actual and necessary expenses. Actual and necessary travel expenses will include, but not be limited to, transportation and/or mileage costs, lodging expenses, meal expenses and registration costs.

Travel Outside the School District

Travel outside of the school district must be pre-approved. Pre-approval will include an evaluation of the necessity of the travel, the reason for the travel and an estimate of the cost of the travel to qualify as approved school district business. Travel outside the school district by employees, other than the superintendent, is pre-approved by the superintendent or an immediate supervisor. Travel outside the school district by the superintendent shall be approved by the board president.

Reimbursement for actual and necessary expenses may be allowed for travel outside the school district if the employee received pre-approval for the travel. Prior to reimbursement of actual and necessary expenses, the employee must provide the school district with a detailed, itemized receipt, indicating the date, purpose and nature of the expense for each claim item. In exceptional circumstances, the superintendent may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

Failure to have a detailed, itemized receipt will make the expense a personal expense. Personal expenses, including mileage, in excess of that required for the trip are reimbursed by the employee to the school district no later than 10 working days following the date of the expense.

Reimbursement for actual and necessary expenses for travel outside the school district will be limited to the pre-approved expenses. Pre-approved expenses for registration are limited to the actual cost of the registration.

School officials and employees may also be reimbursed actual and necessary expenses incurred for attendance at professional meetings, conferences and other activities authorized in advance by the administration or Board of Directors. An expense voucher shall be submitted to receive reimbursement, with original supporting documentation attached, e.g. registration fees, hotel/motel bills, meals receipts, taxi service, parking bills. No alcoholic beverages, personal telephone calls, gratuities, or other items for personal use shall be reimbursable. Air transportation may be paid directly or reimbursed by the District. If an official or employee drives his/her personal automobile out of state rather than using commercial air transportation, the person shall be reimbursed for mileage and for additional hotel/motel and meals expenses arising because of additional travel time at the lesser of (1) actual expenses or (2) the costs of common carrier transportation (coach class of air travel).

Hotel/motel, meal and other expenses will be reimbursed only for the period of time for attendance at the activity, which may include for the evening of the day of the close of the activity if travel back on that evening is not reasonably available or if there is a savings from a flight the next day. If an official or employee stays longer for personal reasons, the person will not be reimbursed for personal expenses or for any travel expenses saved the District as the result of the longer stay.

EMPLOYEE TRAVEL COMPENSATION

Travel Within the School District

Employees required to travel in their personal vehicle between school district buildings to carry out the duties of their position may be reimbursed at the Internal Revenue Service standard mileage rate. It is the responsibility of the superintendent to approve travel within the school district by employees. It is the responsibility of the board to review the travel within the school district by the superintendent through the board's audit and approval process.

Travel allowances within the district will be provided only after board approval. Employees who are allowed a within district travel allowance will have the amount of the allowance actually received during each calendar year included on the employee's W-2 form as taxable income according to the Internal Revenue Code.

Use of District-Owned Vehicles

Certain district employment positions may require regular and extensive travel. Due to the required duties of these positions, the district may provide certain positions with use of district-owned vehicles. Employees who utilize district-owned vehicles during the course of their job duties are fulfilling the public purpose of meeting the needs of the educational community in an efficient, and time-sensitive manner. District-owned vehicles are purchased and maintained with public money and must be used strictly in accordance with fulfilling a public purpose. These vehicles represent the district in carrying out its educational mission. Therefore, district-owned vehicles will be clearly marked at all times to identify the district.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses, in-school district travel allowances and assignment and proper use of school district vehicles. The administrative regulations will include the appropriate forms to be filed for reimbursement to the employee from the school district and the procedures for obtaining approval for travel outside of and within the school district.

CREDIT AND PROCUREMENT CARDS

Employees may use school district credit cards and/or procurement cards (p-cards) for the actual and necessary expenses incurred in the performance of work-related duties. Actual and necessary expenses incurred in the performance of work-related duties include, but are not limited to travel expenses related to professional development or fulfillment of required job duties, fuel for school district transportation vehicles used for transporting students to and from school and for school-sponsored events, payment of claims related to professional development of the board and employees, and other expenses required by employees and the board in the performance of their duties.

Employees and officers using a school district credit or procurement card must submit a detailed, itemized receipt in addition to a credit or procurement card receipt indicating the date, purpose and nature of the expense for each claim item. Failure to provide a proper receipt will make the employee responsible for expenses incurred. Those expenses are reimbursed to the school district no later than ten working days following use of the school district's credit or procurement card. In exceptional circumstances, the superintendent or board may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

The school district may maintain a school district credit or procurement card for actual and necessary expenses incurred by employees and officers in the performance of their duties. The superintendent may maintain a school district credit or procurement card for actual and necessary expenses incurred in the performance of the superintendent's duties. The transportation director may maintain a school district credit or procurement card for fueling school district transportation vehicles in accordance with board policy.

It is the responsibility of the superintendent to determine whether the school district credit or procurement card use is for appropriate school business. It is the responsibility of the board to determine through the audit and approval process of the board whether the school district credit or procurement card used by the superintendent and the board is for appropriate school business.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses and use of a school district credit or procurement card. The administrative regulations will include the appropriate forms to be filed for obtaining a credit or procurement card.

STAFF TECHNOLOGY USE/SOCIAL NETWORKING

Computers, electronic devices and other technology are powerful and valuable education and research tools and, as such, are an important part of the instructional program. In addition, the school district depends upon technology as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's computer resources. Employees must conduct themselves in a manner that does not disrupt from or disrupt the educational process and failure to do so will result in discipline, up to and including, discharge.

General Provisions

The superintendent is responsible for designating a computer network coordinator who will oversee the use of school district technology resources. The computer network coordinator will prepare in-service programs for the training and development of school district staff in technology skills, appropriate use of district technology and for the incorporation of technology use in subject areas.

The superintendent, working with appropriate staff, shall establish regulations governing the use and security of the school district's technology resources. The school district will make every reasonable effort to maintain the security of the district networks and devices. All users of the school district's technology resources, including students, staff and volunteers, shall comply with this policy and regulation, as well as others impacting the use of school equipment and facilities. Failure to comply may result in disciplinary action, up to and including discharge, as well as suspension and/or revocation of technology access privileges.

Usage of the school district's technology resources is a privilege, not a right, and that use entails responsibility. District-owned technology and district maintained social media and e-mail accounts are the property of the school district. Therefore, users of the school district's network must not expect, nor does the school district guarantee, privacy for e-mail or use of the school district's network including web sites visited. The school district reserves the right to access and view any material stored on school district equipment or any material used in conjunction with the school district's network.

The superintendent, working with the appropriate staff, shall establish procedures governing management of technology records in order to exercise appropriate control over technology records, including financial, personnel and student information. The procedures will address at a minimum:

- passwords,
- system administration,
- separation of duties,
- remote access,
- data back-up (including archiving of email),
- record retention, and
- disaster recovery plans.

STAFF TECHNOLOGY USE/SOCIAL NETWORKING

Social Networking or Other External Web Sites

For purposes of this policy any website, other than the school district web site or school district sanctioned web sites, are considered external web sites. Employees shall not post confidential or proprietary information, including photographic images, about the school district, its employees, students, agents or others on any external web site without consent of the superintendent. The employee shall adhere to all applicable privacy and confidentiality policies adopted by the school district when on external web sites. Employees shall not use the school district logos, images, iconography, etc. on external web sites. Employees shall not use school district time or property on external sites that are not in direct relation to the employee's job. Employees, students and volunteers need to realize that the internet is not a closed system and anything posted on an external site may be viewed by others, all over the world. Employees, students and volunteers who don't want school administrators to know their personal information, should refrain from exposing it on the internet. *[Employees should not connect with students via external web sites without consent of the superintendent.]* Employees, who would like to start a social media site for school district sanctioned activities, should contact the superintendent.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy.

Staff Technology Use/Social Networking Regulation

General

The following rules and regulations govern the use of the school district's network systems, employee access to the internet, and management of digital records:

- Employees will be issued a school district email account. Passwords must be changed periodically.
- Each individual in whose name an access account is issued is responsible at all times for its proper use.
- Employees are expected to review their email regularly throughout the day, and shall reply promptly to inquiries with information that the employee can reasonably be expected to provide.
- Communications with parents and/or students must be made on a school district computer, unless in the case of an emergency.
- Employees may access the internet for education-related and/or work-related activities.
- Employees shall refrain from using technology resources for personal use, including access to social networking sites.
- Use of the school district technology and school e-mail address is a public record. Employees cannot have an expectation of privacy in the use of the school district's computers.
- Use of technology resources in ways that violate the acceptable use and conduct regulation, outlined below, will be subject to discipline, up to and including discharge.
- Use of the school district's network is a privilege, not a right. Inappropriate use may result in the suspension or revocation of that privilege.
- Off-site access to the school district network will be determined by the superintendent in conjunction with appropriate personnel.
- All network users are expected to abide by the generally accepted rules of network etiquette. This includes being polite and using only appropriate language. Abusive language, vulgarities and swear words are all inappropriate.
- Network users identifying a security problem on the school district's network must notify appropriate staff. Any network user identified as a security risk or having a history of violations of school district computer use guidelines may be denied access to the school district's network.
- Employees are representatives of the district at all times and must model appropriate character, both on and off the worksite. This applies to material posted with personal devices and on personal websites and/or social media accounts. Posted messages or pictures which diminish the professionalism or discredit the capacity to maintain respect of students and parents may result in disciplinary action up to and including termination if the content posted is found to be disruptive to the educational environment and adversely impacts the employee's ability to effectively serve as a role model or perform his/her job duties for the district. The type of material that would affect an employee's ability to serve as an appropriate role model includes, but is not limited to, text or depictions involving hate speech, nudity, obscenity, vulgarity or sexually explicit content. Employee communications with students should be limited as appropriate. If there is any uncertainty, employees should consult their building administrator.

Prohibited Activity and Uses

The following is a list of prohibited activities for all employees concerning use of the school district's network. Any violation of these prohibitions may result in discipline, up to and including discharge, or other appropriate penalty, including suspension or revocation of a user's access to the network.

- Using the network for commercial activity, including advertising, or personal gain.

STAFF TECHNOLOGY USE/SOCIAL NETWORKING REGULATION

- Infringing on any copyrights or other intellectual property rights, including copying, installing, receiving, transmitting or making available any copyrighted software on the school district computer network. *See Policy 605.7, Use of Information Resources* for more information.
- Using the network to receive, transmit or make available to others obscene, offensive, or sexually explicit material

- Use of another's account or password.
- Attempting to read, delete, copy or modify the electronic mail (e-mail) of other system users.
- Forging or attempting to forge e-mail messages.
- Engaging in vandalism. Vandalism is defined as any malicious attempt to harm or destroy school district equipment or materials, data of another user of the school district's network or of any of the entities or other networks that are connected to the Internet. This includes, but is not limited to, creating and/or placing a virus on the network.

Other Technology Issues

Employees with personal cell phones should avoid using their phones for school district business. Employees should contact students and their parents through the school district's technology or phone system unless in the case of an emergency or with prior consent of the principal. Employees should not release their cell phone number, personal email address, etc. to students or their parents. Employees, who are coaches or sponsors of activities, may create a text list of students and parents in order to communicate more effectively as long as the texts go to all students and the principal is included in the text address list.

EMPLOYEE EXPRESSION

The board believes the district has an interest in maintaining an orderly and effective work environment while balancing employees' First Amendment rights to freedom of expression and diverse viewpoints and beliefs. When employees speak within their official capacity, their expression represents the district and may be regulated. The First Amendment protects a public employee's speech when the employee is speaking as an individual citizen on a matter of public concern. Even so, employee expression that has an adverse impact on district operations and/or negatively impacts an employee's ability to perform their job for the district may still result in disciplinary action up to and including termination.

Employees will comply with Iowa law to the extent that compliance does not infringe on employees' free speech rights.

Employees who use social media platforms are encouraged to remember that the school community may not be able to separate employees as private citizens from their role within the district. Employee expression on social media platforms that interferes with the district's operations or prevents the district from functioning efficiently and effectively may be subject to discipline up to and including termination.

A district employee who acts to protect a student for engaging in free expression or who refuses to infringe on students engaging in free expression, and who is acting within the scope of their professional ethics, will not be retaliated against or face any adverse employment action based on their behavior provided that expression is otherwise permitted by law and board policy.

If the board or court finds an employee that is subject to licensure, certification, or authorization by the Bureau of Educational Examiners discriminated against a student or other co-employee, the board will refer the employee to the Bureau of Educational Examiners for additional proceedings as required by law and which may result in discipline up to and including termination.

EMPLOYEE OUTSIDE EMPLOYMENT

The board believes the primary responsibility of employees is to the duties of their position within the school district as outlined in their job description. The board considers an employee's duties as part of a regular, full-time position as full-time employment. The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It is the responsibility of the superintendent to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

The board may request the employee to cease the outside employment as a condition of continued employment with the school district.

School bus drivers will present evidence of good health upon initial hire and every other year in the form of a physical examination report, unless otherwise required by law or medical opinion. All other employees shall present evidence of good health, in the form of a post-offer, pre-employment physical examination report.

The cost of the initial examination will be paid by the employee. The form indicating the employee is able to perform the duties, with or without reasonable accommodation, for which the employee was hired, must be returned prior to the performance of duties. The cost of bus driver renewal physicals will be paid by the school district. The school district will provide the standard examination form to be completed by the personal physician of the employee or a certified medical examiner for bus drivers.

Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations to the extent job-related and consistent with business necessity, when requested to do so, at the expense of the school district.

The district will comply with occupational safety and health requirements as applicable to its employees in accordance with law.

When an employee becomes seriously injured on the job, the employee's supervisor will attempt to notify a member of the family, or an individual of close relationship, as soon as the employee's supervisor becomes aware of the injury.

If possible, an employee may administer emergency or minor first aid. An injured employee will be turned over to the care of the employee's family or qualified medical employees as quickly as possible. The school district is not responsible for medical treatment of an injured employee.

It is the responsibility of the employee injured on the job to inform the superintendent within twenty-four hours of the occurrence. It is the responsibility of the employee's immediate supervisor to file an accident report within twenty-four hours after the employee reported the injury.

COMMUNICABLE DISEASES - EMPLOYEES

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission to students or other employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee's personal physician, a physician chosen by the school district or public health officials.

Health data of an employee is confidential and it will not be disclosed to third parties. Employee medical records are kept in a file separate from their personal file.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

HEPATITIS B VACCINE INFORMATION AND RECORD

The Disease

Hepatitis B is a viral infection caused by the Hepatitis B virus (HBV) which causes death in 1-2% of those infected. Most people with HBV recover completely, but approximately 5-10% become chronic carriers of the virus. Most of these people have no symptoms, but can continue to transmit the disease to others. Some may develop chronic active hepatitis and cirrhosis. HBV may be a causative factor in the development of liver cancer. Immunization against HBV can prevent acute hepatitis and its complications.

The Vaccine

The HBV vaccine is produced from yeast cells. It has been extensively tested for safety and effectiveness in large scale clinical trials.

Approximately 90 percent of healthy people who receive two doses of the vaccine and a third dose as a booster achieve high levels of surface antibody (anti-HBs) and protection against the virus. The HBV vaccine is recommended for workers with potential for contact with blood or body fluids. Full immunization requires three doses of the vaccine over a six-month period, although some persons may not develop immunity even after three doses.

There is no evidence that the vaccine has ever caused Hepatitis B. However, persons who have been infected with HBV prior to receiving the vaccine may go on to develop clinical hepatitis in spite of immunization.

Dosage and Administration

The vaccine is given in three intramuscular doses in the deltoid muscle. Two initial doses are given one month apart and the third dose is given six months after the first.

Possible Vaccine Side Effects

The incidence of side effects is very low. No serious side effects have been reported with the vaccine. Ten to 20 percent of persons experience tenderness and redness at the site of injection and low grade fever. Rash, nausea, joint pain, and mild fatigue have also been reported. The possibility exists that other side effects may be identified with more extensive use.

HEPATITIS B VACCINE INFORMATION AND RECORD

CONSENT FORM OF HEPATITIS B VACCINATION

I have knowledge of Hepatitis B and the Hepatitis B vaccination. I have had an opportunity to ask questions of a qualified nurse or physician and understand the benefits and risks of Hepatitis B vaccination. I understand that I must have three doses of the vaccine to obtain immunity. However, as with all medical treatment, there is no guarantee that I will become immune or that I will not experience side effects from the vaccine. I give my consent to be vaccinated for Hepatitis B.

REFUSAL FORM OF HEPATITIS B VACCINATION

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring the Hepatitis B virus infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine at no charge to myself. However, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with the Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

UNIVERSAL PRECAUTIONS REGULATION

Universal precautions (UP) are intended to prevent transmission of infection, as well as decrease the risk of exposure for employees and students. It is not currently possible to identify all infected individuals, thus precautions must be used with every individual. UP pertains to blood and other potentially infectious materials (OPIM) containing blood. These precautions do not apply to other body fluids and wastes (OBFW) such as saliva, sputum, feces, tears, nasal secretions, vomitus and urine unless blood is visible in the material. However, these OBFW can be sources of other infections and should be handled as if they are infectious. The single most important step in preventing exposure to and transmission of any infection is anticipating potential contact with infectious materials in routine as well as emergency situations. Based on the type of possible contact, employees and students should be prepared to use the appropriate precautions prior to the contact. Diligent and proper hand washing, the use of barriers, appropriate disposal of waste products and needles, and proper decontamination of spills are essential techniques of infection control. All individuals should respond to situations practicing UP followed by the activation of the school response team plan. Using common sense in the application of these measures will enhance protection of employees and students.

Hand Washing

Proper hand washing is crucial to preventing the spread of infection. Textured jewelry on the hands or wrists should be removed prior to washing and kept off until completion of the procedure and the hands are rewashed. Use of running water, lathering with soap and using friction to clean all hand surfaces is key. Rinse well with running water and dry hands with paper towels.

- Hands should be washed before physical contact with individuals and after contact is completed.
- Hands should be washed after contact with any used equipment.
- If hands (or other skin) come into contact with blood or body fluids, hands should be washed immediately before touching anything else.
- Hands should be washed whether gloves are worn or not and, if gloves are worn, after the gloves are removed.

Barriers

Barriers anticipated to be used at school include disposable gloves, absorbent materials and resuscitation devices. Their use is intended to reduce the risk of contact with blood and body fluids as well as to control the spread of infectious agents from individual to individual. Gloves should be worn when in contact with blood, OPIM or OBFW. Gloves should be removed without touching the outside and disposed of after each use.

Disposal of Waste

Blood, OPIM, OBFW, used gloves, barriers and absorbent materials should be placed in a plastic bag and disposed of in the usual procedure. When the blood or OPIM is liquid, semi-liquid or caked with dried blood, it is not absorbed in materials, and is capable of releasing the substance if compressed, special disposal as regulated waste is required. A band aid, towel, sanitary napkin or other absorbed waste that does not have the potential of releasing the waste if compressed would not be considered regulated waste. It is anticipated schools would only have regulated waste in the case of a severe incident. Needles, syringes and other sharp disposable objects should be placed in special puncture-proof containers and

disposed of as regulated waste. Bodily wastes such as urine, vomitus or feces should be disposed of in the sanitary sewer system.

UNIVERSAL PRECAUTIONS REGULATION

Clean up

Spills of blood and OPIM should be cleaned up immediately. The employee should:

- Wear gloves.
- Clean up the spill with paper towels or other absorbent material.
- Use a solution of one part household bleach to one hundred parts of water (1:100) or other EPA-approved disinfectant and use it to wash the area well.
- Dispose of gloves, soiled towels and other waste in a plastic bag.
- Clean and disinfect reusable supplies and equipment.

Laundry

Laundry with blood or OPIM should be handled as little as possible with a minimum of agitation. It should be bagged at the location. If it has the potential of releasing the substance when compacted, regulated waste guidelines should be followed. Employees who have contact with this laundry should wear protective barriers.

Exposure

An exposure to blood or OPIM through contact with broken skin, mucous membrane or by needle or sharp stick requires immediate washing, reporting and follow-up.

- Always wash the exposed area immediately with soap and water.
- If a mucous membrane splash (eye or mouth) or exposure of broken skin occurs, irrigate or wash the area thoroughly.
- If a cut or needle stick injury occurs, wash the area thoroughly with soap and water.

The exposure should be reported immediately, the parent or guardian is notified, and the person exposed contacts a physician for further health care.

HAZARDOUS CHEMICAL DISCLOSURE

The board authorizes the development of a comprehensive hazardous chemical communication program for the school district to disseminate information about hazardous chemicals in the workplace.

Each employee will annually review information about hazardous substances in the workplace. When a new employee is hired or transferred to a new position or work site, the information and training, if necessary, is included in the employee's orientation. When an additional hazardous substance enters the workplace, information about it is distributed to all employees, and training is conducted for the appropriate employees. The superintendent will maintain a file indicating which hazardous substances are present in the workplace and when training and information sessions take place.

Employees who will be instructing or otherwise working with students will disseminate information about the hazardous chemicals with which they will be working as part of the instructional program.

It is the responsibility of the superintendent to develop administrative regulations regarding this program.

SUBSTANCE-FREE WORKPLACE

The board expects the school district and its employees to remain substance free. No employee will unlawfully manufacture, distribute, dispense, possess, use, or be under the influence of, in the workplace, any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana or any other controlled substance or alcoholic beverage as defined by federal or state law. "Workplace" includes school district facilities, school district premises or school district vehicle, also includes nonschool property if the employee is at any school-sponsored, school-approved or school-related activity, event or function, such as field trips or athletic events where students are under the control of the school district or where the employee is engaged in school business.

If an employee is convicted of a violation of any criminal drug offense committed in the workplace, the employee will notify the employee's supervisor of the conviction within five days of the conviction.

The superintendent will make the determination whether to require the employee to undergo substance abuse treatment or to discipline the employee. An employee who violates the terms of this policy may be subject to discipline up to and including termination. An employee who violates this policy may be required to successfully participate in a substance abuse treatment program approved by the board. If the employee fails to successfully participate in a program, the employee may be subject to discipline up to and including termination.

The superintendent is responsible for publication and dissemination of this policy to each employee. In addition, the superintendent will oversee the establishment of a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment programs.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.

Employees who violate the terms of this policy are subject to discipline, up to and including termination. The district is required to keep a record of all drug or alcohol violations by employees for a minimum of five years. Employees are put on notice that information related to drug or alcohol violations will be reported to the Federal Motor Carrier Safety Administration (FMCSA) Clearinghouse. Additionally, the district will conduct FMCSA Clearinghouse queries for employees annually. Employees must provide written consent for the district to conduct FMCSA Clearinghouse queries; however, employees who choose to withhold consent will be prohibited from performing any safety-sensitive functions.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy in compliance with the law. The superintendent will inform applicants of the requirement for drug and alcohol testing in notices or advertisements for employment.

The superintendent will also be responsible for publication and dissemination of this policy and supporting administrative regulations and forms to employees operating school vehicles. LICENSED EMPLOYEE EVALUATION

Evaluation of licensed employees on their skills, abilities, and competence is an ongoing process supervised by the building principals and conducted by approved evaluators. The goal of the formal evaluation of licensed employees, other than administrators, but including extracurricular employees, is to improve the education program, to maintain licensed employees who meet or exceed the board's standards of performance, to clarify the licensed employee's role, to ascertain the areas in need of improvement, to clarify the immediate priorities of the board, and to develop a working relationship between the administrators and other employees.

The formal evaluation criteria is in writing and approved by the board. The formal evaluation will provide an opportunity for the evaluator and the licensed employee to discuss performance and the future areas of growth. The formal evaluation is completed by the evaluator, signed by the licensed employee and filed in the licensed employee's personnel file. This policy supports, and does not preclude, the ongoing informal evaluation of the licensed employee's skills, abilities and competence.

Licensed employees will be required to:

- Demonstrate the ability to enhance academic performance and support for and implementation of the school district's student achievement goals.
- Demonstrate competency in content knowledge appropriate to the teaching position.
- Demonstrate competency in planning and preparation for instruction.
- Use strategies to deliver instruction that meets the multiple learning needs of students.
- Use a variety of methods to monitor student learning.
- Demonstrate competence in classroom management.
- Engage in professional growth.
- Fulfill professional responsibilities established by the school district.
- It is the responsibility of the superintendent to ensure licensed employees are evaluated. New and probationary licensed employees are evaluated at least twice each year.

LICENSED EMPLOYEE PROBATIONARY STATUS

The first three consecutive years of a licensed employee's contract is a probationary period unless the employee has already successfully completed the probationary period in an Iowa school district. New employees who have successfully completed a probationary period in a previous Iowa school district will serve a two year probationary period. For purposes of this policy, an employee will have met the requirements for successfully completing a probationary period in another Iowa school district if, at the teacher's most recent performance evaluation, the teacher received at least a satisfactory or better evaluation and the individual has not engaged in conduct which would disqualify the teacher for a continuing contract.

Only the board, in its discretion, may waive the probationary period. The board may extend the probationary period for one additional year with the consent of the licensed employee. The board will make the decision to extend or waive a licensed employee's probationary status based upon the superintendent's recommendation. During this probationary period the board may terminate the licensed employee's contract at the end of the year without cause or immediately discharge the employee consistent with applicable law and board policies.

Move to an available alternative position, with equivalent pay and benefits, but not necessarily equivalent duties, for which the employee is qualified.
3. Instructional employees who request continuous family and medical leave near the end of a semester may be required to extend the family and medical leave through the end of the semester. The number of weeks remaining before the end of a semester does not include scheduled school breaks, such as summer, winter or spring break. a. If an instructional employee begins family and medical leave for any purpose more than five weeks before the end of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last at least three weeks and the employee would return to work during the last three weeks of the semester if the leave was not continued. b. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last five weeks of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last more than two weeks and the employee would return to work during the last two weeks of the semester. c. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last three weeks of the semester and the leave will last more than five working days, the school district may require the employee to continue taking leave until the end of the semester.
4. The entire period of leave taken under the special rules is credited as family and medical leave. The school district will continue to fulfill the school district's family and medical leave responsibilities and obligations, including the obligation to continue the employee's health insurance and other benefits, if an instructional employee's family and medical leave entitlement ends before the involuntary leave period expires.

EMPLOYEE FAMILY AND MEDICAL LEAVE DEFINITIONS

"Needed to Care For" - the medical certification that an employee is "needed to care for" a family member encompasses both physical and psychological care. For example, where, because of a serious health condition, the family member is unable to care for his or her own basic medical, hygienic or nutritional needs or safety or is unable to transport himself or herself to medical treatment. It also includes situations where the employee may be needed to fill in for others who are caring for the family member or to make arrangements for changes in care.

Physical or Mental Disability - a physical or mental impairment that substantially limits one or more of the major life activities of an individual.

Reduced Leave Schedule - a leave schedule that reduces the usual number of hours per workweek, or hours per workday, of an employee.

Serious Health Condition -

- An illness, injury, impairment, or physical or mental condition that involves:
 - Inpatient care (i.e. an overnight stay) in a hospital, hospice or residential medical care facility including any period of incapacity (for purposes of this section, defined to mean inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from), or any subsequent treatment in connection with such inpatient care; or
 - Continuing treatment by a health care provider. A serious health condition involving continuing treatment by a health care provider includes:
 - A period of incapacity (i.e., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from) of more than three consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves:
 - Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders or, or on referral by, a health care provider; or
 - Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.
 - Any period of incapacity due to pregnancy or for prenatal care.
 - Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which:
 - Requires periodic visits for treatment by a health care provider or by a nurse or physician's assistant under direct supervision of a health care provider;
 - Continues over an extended period of time (including recurring episodes of a single underlying condition); and
 - May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

EMPLOYEE FAMILY AND MEDICAL LEAVE DEFINITIONS

- A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's a severe stroke or the terminal stages of a disease.
- Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).
- Treatment for purposes of this definition includes, but is not limited to, examinations to determine if a serious health condition exists and evaluation of the condition. Treatment does not include routine physical examinations, eye examinations or dental examinations. Under this definition, a regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
- Conditions for which cosmetic treatments are administered (such as most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are examples of conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this regulation are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.
- Substance abuse may be a serious health condition if the conditions of this section are met. However, FMLA leave may only be taken for treatment for substance abuse by a health care provider or by a provider of health care on referral by a health care provider. On the other hand, absence because of the employee's use of the substance, rather than for treatment, does not qualify for FMLA leave.
- Absence attributable to incapacity under this definition qualify for FMLA leave even though the employee or the immediate family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

Serious Injury or Illness - an injury or illness incurred by a member of the Armed forces, including the National Guard or Reserves in the line of duty on active duty in the Armed Forces that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating.

Son or daughter - a biological child, adopted child, foster child, stepchild, legal ward, or a child of a person standing in loco parentis. The child must be under age 18 or, if over 18, incapable of self-care because of a mental or physical disability.

Spouse - a husband or wife recognized by Iowa law including common law marriages.
